

## **BIBLIOGRAPHY**

BIBLIOGRAPHY

1] Quantitative Techniques in Management.

By N. D. Vottra.

2] Operations Research Techniques for Management.

By B. Banerjee.

3] Mathematical Models in Operation Research.

By J. K. Sharma.

4] Inventory Management.

By L. C. Jhamb.

5] Unpublished Ph.D. thesis of Mr. R. V. Kulkarni entitled

"A Study of the Optimal Inventory Policies".

6] Essentials of Production and Operations Management

By Ray Wild.

7] Applied Operations Research and Management Science

By Fabrycky, Ghare, Torgersen.

**8] Scientific Inventory Management**

**By Joshep Buchan and Ernest Koenigsberg.**

**9] Analysis of Inventory Systems**

**By G. Hadley and T. M. Whitin.**

**10] Decision Making Through Operation Research**

**By Thierauf, Klekamp**

**11] Quantitative Approaches To Manangement**

**By Levin, Rubin and Stinson.**

**12] Quantitative Methods For Management**

**By Cooke.**

**13] Production Planning and Inventory Control**

**By Magee and Boodman.**

**14] Inventory Management**

**By IMFR Publication.**
