

CONTENT OF TABLES

Table No.	Title Of The Table	Page No.
4.1	Share Capital From "A" Class Members	42
4.2	Fitting Of Regression Line	43
4.3	Actual And Trend Values For Share Capital	44
4.4	Ratio Of Available Sugarcane From Working Zone To Total Sugarcane Crushed	46
4.5	Fitting Of Regression	47
4.6	Actual And Trend Values	48
4.7	Application Of Chi-Square For Goodness Of Fit For Regression Line	49
4.8	Area Under Sugarcane Cultivation	50
4.9	Fitting Of Regression	51
4.10	Actual And Trend Values	52
4.11	Sugarcane Yield Per Hectare In Zonal Area	54
4.12	Trend By Moving Average	54
4.13	Actual And Trend Values	55
4.14	Cane Crushing Per Day	57
4.15	Fitting Of Trend	58
4.16	Actual And Trend Values	59
4.17	Assigning Maximum Value For Cane Crushing	61
4.18	Recovery Of M.S.S.K.	63
4.19	Assigning Limits For Recovery	64
4.20	Purchasing Price For Sugarcane	66
4.21	Production Cost Of M.S.S.K.	67
4.22	Selling Price	68
4.23	Sugar Production	69
4.24	Total Sales Of M.S.S.K.	70
4.25	Percentage Of Stocks In Total Sales	71
4.26	Comparative Statement Of Production, Stock And Sales Of Sugar	72
4.27	Profits Of M.S.S.K.	73
4.28	Sugarcane Crushed And Sugar Produced In M.S.S.K.	74
4.29	Fitting Of Regression	75
4.30	Actual And Trend Values For Sugar Production	76
4.31	Comparative Statement Of Sugarcane Available From Zonal and Out Of Zonal Area	78
4.32	Capacity Utilization For Crushing	80
4.33	Sales Revenue Lost Due To Unused Capacity	81
4.34	Assigning Limits For Unused Capacity For Crushing	82
4.35	Transportation Cost For Athani Division	85

4.36	Transportation Cost For Jath Division	86
4.37	Transportation Cost For Sangola Division	86
4.38	Transportation Cost For Miraj Kolhapur Division	87
4.39	Transportation Cost For Mangalvedha Pandharpur Division	88
4.40	Determination Of Capacity Karnatak Division	89
4.41	Determination Of Capacity Jath Division	89
4.42	Determination Of Capacity Tasgaon Atpadi Division	89
4.43	Determination Of Capacity Mangalvedha Pandharpur Division	90
4.44	Determination Of Capacity Miraj Kolhapur Division	90
4.45	Determination Of Capacity Sangola Division	90
4.46	Formation Of Transportation Table	91
4.47	Initial Solution	92
4.48	Optimality Test (Determination Of U_i, V_j)	93
4.49	Determination Of Δ_{ij}	94
4.50	Transportation Of Sugarcane Proposed Allocation	94
4.51	Transportation And Harvesting Cost	95
4.52	Observed Transportation Cost	95
