

Acknowledgement

Co-operative credit society aims at progressing the society in respect of finance. The working of urban co-operative credit societies is directly concerned with the economic upliftment of the members. The study of the working of urban co-operative credit societies is not only challenging but essential also. Some research work has been done in the fields of Banking and co-operation. However, hardly any study has tried to analyse the working of urban co-operative credit societies. The present study purports to fill this gap by undertaking a study of the working of urban co-operative credit societies in Wai Taluka.

I sincerely acknowledge my indebtedness to my guide, Dr. K. V. Bachute, without whose valuable guidance and constant encouragement, this work would not have been possible. It was he who inspired me to complete this work.

I express my sincere gratitude to Dr. J.S. Chaudhari, the Head of the Department of Commerce and Prof. V. B. Karade for their guidance and co-operation during the course of my research study.

I am also thankful to all the Chairmans, Directors, Managers as well as clerical staff of all the urban co-operative credit societies in Wai Taluka, who provided all the necessary information as and when it was needed. I record with gratitude the help given by the officers and the staff of the office of Assistant Registrar of Co-operative Societies in Wai and of the office of the Deputy Registrar of Co-operative Societies in Satara.

I must thank Miss Geeta Gosavi for typing the script in the neat form.

Wai
