

ACKNOWLEDGEMENT

While stepping in the door of the completion of my dissertation, I take an opportunity of expressing my deep sense of gratitude although words fail to express it towards my research guide Dr. (Mrs.) S.S. Chitanvis, whose able guidance and constant encouragement enabled me to finalise this piece of work. Her inspiration, valuable suggestions and ever ready, co-operativeness, have contributed a lot in my research.

I wish to express my gratitude to Dr. B. A. Hegde, Head of the Department of Botany, Shivaji University, Kolhapur who permitted me to undertake this piece of work and provided me all the research facilities. His continued interest and encouragement are largely responsible for achieving my goal.

I express my heartiest thanks to all the research colleagues, teaching and non-teaching staff of the Botany Department, Shivaji University, Kolhapur for their sincere co-operation.

I extend my hearty sense of gratitude and immense debt I owe to Mr. A.K. Purohit and my daughters Tapasya and Shradha who gave their best co-operation and encouraged me at every walk of my life, otherwise it would have been only a dream to me to reach the goal.

Lastly, I have to express my thanks to Mr. Sutar for his skillful photographic work.

Kolhapur
