## 1.8 Details of land :

|                      | Before Percolation |
|----------------------|--------------------|
| A) After Percolation |                    |
| Total                |                    |
| Irrigated            |                    |
| Unirrigated          |                    |

## 2) Cropping Pattern :

| <u>Before Percolation Tank</u> | <u>After Percolation Tank</u> |
|--------------------------------|-------------------------------|
| Crop                           | Hectares                      |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |
|                                |                               |

## 3) production :

| <u>Before Percolation Tank</u> |                  | <u>After Percolation Tank</u> |                  |
|--------------------------------|------------------|-------------------------------|------------------|
| Crop                           | Production Value | Crop                          | Production Value |

-----

Net increase in production :

Net increase in Income :

## 4) Cultivated Expenditure :

| <u>Before Percolation Tank</u> | <u>After Percolation Tank</u> |
|--------------------------------|-------------------------------|
|--------------------------------|-------------------------------|

1) Seeds

2) Fertilizers

3) Irrigation

4) Pesticides

5) Wages :

a) Ploughing

b) Sowing

c) Crop-cutting

d) Other

-----

Total Expenditure

-----

5) Assets/Property

| Before |                      | After |                      |
|--------|----------------------|-------|----------------------|
| Type   | Value at Market rate | Type  | Value at Market rate |
| -----  |                      |       |                      |
| Total  |                      |       |                      |
| =====  |                      |       |                      |

5.2 Net increase in assets.

6) Employment

| Before    | After |
|-----------|-------|
| -----     |       |
| Total     |       |
| Permanent |       |
| Seasonal  |       |
| =====     |       |

6.2 Impact/Effect.

7) Other.
