

ACKNOWLEDGEMENT

My dissertation would not have been complete unless I were rendered timely advice and kind help by some persons whom I shall remain ever grateful to. I consider this part i.e. acknowledgement as a part and parcel of my Dissertation.

In the beginning I offer my sincere thanks to the members of the Market Committee for rendering me the golden opportunity to undertake the research work in their organization and extending every assistance and facility without my work would not have been complete.

I am greatly indebted to Mr. Ghatage S.D., Secretary of Market Committee, for his valuable advices and co-operation - given at the time of studying the Market at Gadhinglaj.

My thanks are also to the traders and farmers for their co-operation in giving valuable information.

I owe my deep feelings to gratitude and obligations to Dr. Paithankar for his valuable guidance and recommendations - while completing this Dissertation.
