

List of Plates

Plate No.	Title	Page
1	Steady State Porometer used to study the stomatal regulation.	... 26
2	Effect of HICO-110 R foliar application on growth of groundnut var. JL-24 under control and water stressed condition.	... 71
3	Leaf area expansion influenced by foliar application of HICO-110 R.	... 72
4	Effect of HICO-110 R foliar application on growth of sorghum var. M 35-1 under control condition.	... 73
5	Effect of HICO-110 R foliar application on growth of sorghum var. M.35-1 under water stressed condition.	... 74
6	Ear-head development of sorghum var. M-35-1 influenced by HICO-110 R foliar application under control and water stressed condition.	... 80
7	Growth and pod yield in groundnut var. JL-24 influenced by HICO-110 R foliar application.	... 81
