## C O N T E N T S

Chapter No.	T i t l e	Page
	<u>ACKNOWLEDGEMENTS</u>	(i)
	<u>LIST OF FIGURES AND TABLE</u>	(iv)
	<u>ABBREVIATIONS</u>	(vi)
	<u>INTRODUCTION</u>	( x )
I	<u>REVIEW OF LITERATURE</u>	
1	Introduction	1
2	History of <u>Agave</u>	2
3	Taxonomic Position	3
4	Distribution in India	4
5	Morphology	6
6	Propagation and Planting	9
7	Pests and Diseases	15
8	Economic Importance	15
9	Cytology	20
10	Embryological Studies	21
11	Anatomical Studies	22
12	Physiological Studies	
	(i) Growth	24
	(ii) Crassulacean Acid Metabolism	24
	(iii) Water Relations	33
	(iv) Temperature Tolerance	37
	(v) Mineral Nutrition	39

Chapter No.	T i t l e	Page
	(vi) Productivity Studies	41
	(vii) Other Biochemical Studies	41
	(viii) Phytochemical Studies	44
II	<u>MATERIAL AND METHODS</u>	
	A) Plant material	
	(i) Cultivation of <u>Agave</u> plants	46
	(ii) Sampling method	46
	B) Methods	
	1. Inorganic Constituents	
	(i) Preparation of acid digest	47
	(ii) Estimation of sodium, potassium, calcium, magnesium and iron	49
	2. Organic Constituents	
	(i) Moisture percentage of leaf	50
	(ii) organic acid status (Titratable Acid Number)	50
	(iii) Carbohydrates	51
	(iv) Total polyphenols	53
	(v) Proline	54
	(vi) Pigments	
	(a) Chlorophylls	55
	(b) Carotenoids	56
	3. Study of stomatal behaviour during different seasons	57

Chapter No	T i t l e	Page
4.	Crassulacean Acid Metabolism Studies	
	(i) Study of diurnal fluctuations in Titratable Acid Number (TAN) during different seasons	57
	(ii) Study of diurnal fluctuations in carbohydrates during different seasons.	57
III	<u>RESULTS AND DISCUSSION</u>	
1.	Inorganic Constituents	
	a) Sodium	59
	b) Potassium	64
	c) Calcium	70
	d) Magnesium	77
	e) Iron	83
2.	Organic Constituents	
	(i) Moisture Percentage	89
	(ii) Titratable Acidity (TAN)	94
	(iii) Carbohydrates	99
	(iv) Total Polyphenols	110
	(v) Proline	114
	(vi) Pigments	
	a) Chlorophyll	121
	b) Carotenoids	129

---

Chapter No.	T i t l e	Page
3.	Study of Stomatal Behaviour During Different Seasons.	132
4.	Crassulacean Acid Metabolism Studies	
	(i) Study of diurnal fluctuations in carbohydrates during different seasons	144
	(ii) Study of diurnal fluctuations in TAN values during different seasons	152
IV	<u>SUMMARY AND CONCLUSIONS</u>	162
	<u>BIBLIOGRAPHY</u>	174
	<u>STATEMENT-I</u>	207
	<u>STATEMENT-II</u>	208
