CHAPTER – 3

RURAL DEVELOPMENT SCHEMES

3.1 INTRODUCTION

The history of rural development can be traced back to the late nineteenth century, in the year 1866 an English lady by the name of Rachel Metcalfe brought Quaker Service to India with avowed objective of "Selfless Service" to human kind, the first of such acts by this Quaker and other Quakers were visible in the famines of 1895-96 and 1899-1900. The first attempt for rural development in India was made in 1885 with an ultimate objective of bringing immediate relief and development of rural areas in Baroda. In 1922, the Swaraj Ashram was established at Baroda by Magan Lal Gandhi. The Ashram aimed at preparing for non-cooperation, and the civil disobedience movement launched by the Indian National Congress under the leadership of Gandhi. The resolution for non-cooperation was passed earlier in September 1920 at Calcutta Congress under the president ship of Lala Lajpat Rai.

"Grow More Food" campaign was started in 1943 with a view to augmenting the level of food production through planning and implementation of short-term and long-term improvement programs in agriculture. The action of the Kisan Sabha under the leadership of the Communist Party worker Mrs. Godavari Parulekar in 1945, as an important step against exploitation in rural areas, for the first time, Adivasis made slogans against exploitation by landlords, moneylenders and contractors. As a result, the Government started to encourage formation of cooperative Labor Contract Societies for forest workers since 1947.

After independence, in September 1948 the first and the foremost "Pilot Project" was started in an area of 64 villages scattered in the vicinity of Mahewa, located at a distance of about 8 miles from the Headquarters of Etawah district. In the year 18th April 1952, the Bhoodan Movement was started under the leadership of Vinoba Bhave. The aim of the movement was to acquire land through donation from individual landowners and distribute it fairly among the landless families. Similar kinds of movements like "Gramdan and Shramdan" were also started in the direction of rural development during this period. The first Five Year Plan conceived the National Extension Service (NES) was started in 1952 by the Government of India with the establishment of 55 Community Development Projects across the states in the country. The Panchayat or the village council was the basic institution in the three-tier scheme of Panchayat Raj. The village council had the overall responsibility of carrying out the major functions as follows:

- (a) drinking water supply
- (b) sanitation
- (c) maintenance of public street, local roads, drains, culverts, etc.
- (d) lighting of village streets
- (e) maintenance of land and cattle records and vital statistics
- (f) supervision of primary schools
- (g) welfare of backward classes.

In the field of rural development, we notice that the cooperative movement made the most remarkable progress and the number of cooperative societies rose to about 35,000 by the end of 1963. But members of these societies never took keen interest in making the societies a great success.

Any strategy for rural development must involve the people themselves and their institutions at all levels. The need for revitalizing Panchayat Raj Institutions has, therefore, been recognized as an instrument for participative planning and implementation of various development programs at grassroots level. The Ministry is constantly endeavoring to empower the Panchayat Raj Institutions in terms of functions powers and finance. The Gram Sabha being potentially the most significant institution for participatory democracy and decentralization, it has been decided to observe 1999-2000 as the "Year of Gram Sabha".

3.1.1 CONCEPT OF RURAL DEVELOPMENT

The concept of 'Rural Development' was born in the context of agriculture, and it remained, for a long time, coterminous with agriculture India. The royal commission on agriculture (1928), for instant, provides this kind of interpretation to the 'rural development.'

Definition of Rural Development

Some of these definitions are given above:

The World Bank

Rural development is a strategy to improve the economic and social life of specific group of people, the rural poor, including small and marginal farmers, tenants and the landless.

Robert chambers

Rural development is a strategy to enable a specific group of people, poor rural women and men, to gain for themselves and their children more of what they want and need. It involves helping the poorest among those who seek a livelihood in rural areas to demand and control more of the benefits of rural development.

Ensminger

Rural development seeks to involve a process of transformation from traditionally oriented rural cultural towards an acceptance and reliance on science and technology.

3.2 OBJECTIVE OF RURAL DEVELOPMENT

The rural developments have the following main objectives:

- 1. Providing certain social goods and services in term of social and economic infrastructure.
- 2. Increasing the income of every rural family and to see that those who below the poverty line are enable to income above that line in coming years.
- 3. Creation of additional employment opportunities is rural areas.
- 4. It is essentially concerned with the improvement of the living standards of low income population living in rural areas on a self-sustaining basis through transforming the socio-spatial structure of their production activities.
- 5. It implies a road based re-organization and mobilization of the rural masses so as to enhance their capacity to cope effectively with the daily tasks of other lives and with changes consequent upon this.

- 6. Improvement of service of rural masses in the process.
- 7. Improvement of know-how which is to be implemented to the rural people to infuse in them a sense of pragmatism in the process of development.

3.3 NEED AND IMPORANCE OF RURAL DEVELOPMENT

Rural development is a national necessity and has considerable importance in India because of the following reasons.

- 1. To develop rural area as whole in terms of culture, society, economy, technology and health.
- 2. To develop living slandered of rural peoples.
- 3. To develop infrastructure facility of rural area.
- 4. To develop rural institutions like panchayat, cooperatives, post, banking and credit.
- 5. To develop entertainment and recreational facility for rural mass.
- 6. To minimize gap between the urban and rural in terms of facilities availed.
- 7. For the sustainable development of rural area.
- 8. To develop and empower human resource of rural area in terms of their psychology, skill, knowledge, attitude and other abilities.
- 9. To develop leadership quality of rural area.
- 10. To provide financial assist to develop the artisans in the rural areas, farmers and agrarian unskilled labor, small and big rural entrepreneurs to improve their economy.
- 11. To improve scopes of employment for rural mass.
- 12. To develop rural industries through the development of handicrafts, small scale industries, village industries, rural crafts, cottage industries and other related economic operations in the rural sector.
- 13. To restore uncultivated land, provide irrigation facilities and motivate farmers to adopt improved seed, fertilizers, package of practices of crop cultivation and soil conservation methods.
- 14. To improve rural people's participation in the development of state and nation as whole.

15. To solve the problems faced by the rural mass for their development.

3.4 ROLE OF NABARD IN RURAL DEVELOPMENT

NABARD is an apex institution accredited with all matters concerning policy, planning and operations in the field of credit for agriculture and other economic activities in rural areas. It is an apex refinancing agency for the institutions providing investment and production credit for promoting the various developmental activities in rural areas. It takes measures towards institution building for improving absorptive capacity of the credit delivery system, including monitoring, formulation of rehabilitation schemes, restructuring of credit institutions, training of personnel, etc. It co-ordinates the rural financing activities of all the institutions engaged in developmental work at the field level and maintains liaison with Government of India, State Governments, Reserve Bank of India and other national level institutions concerned with policy formulation. It prepares, on annual basis, rural credit plans for all districts in the country; these plans form the base for annual credit plans of all rural financial institutions. It undertakes monitoring and evaluation of projects refinanced by it. It promotes research in the fields of rural banking, agriculture and rural development.

3.5 RURAL DEVELOPMENT SCHEMES OF SATARA DISTRICT CENTRAL CO-OPERATIVE BANK

The board of director of Satara District Central Co-operative Bank takes into consideration the global market situation and the present India's economic strategies and provides loan to farmers as well as the other members of the society such as farm workers, business man, working people, and unemployed men, business woman. Bank has five times awarded by NABARD for the best work. Bank has number of schemes which think only about the socio economic development. Bank has brought flexibility in loan disbursed procedures and aims. It takes precaution in easy and immediate loan supply.

Bank also provides loan to businessman, and employed people for the amenities such as freeze, washing machine, T.V., mixer, stitching machine, Xerox, furniture, two wheelers, four wheelers, crash credit loan, over draft loan, house loan, house repairing loan etc. as per the NABARD's plan bank provides loan to all plants through Krishi Bank Kisan Credit Card scheme. Bank has provides loan for high-tech farming and in this way bank tries to improve the agricultural condition in Satara District. Green house, drip sprinkler and pipe line irrigation comes under the high-tech farming and bank provides for it middle and long term loan. These facilities help to living standard of famers as well as they complete governments Santa Gadgebaba Swachhata Abhiyan. Bank also gives gold loan with limit of Rs. 0.50 lakhs to 1.00 lakhs and interest rate is decreased. Above all schemes are affordable for all types of consumers. Bank has runs all NABARD schemes in Satara district through farmers group and self help group. These NABARD scheme helps to bank to achieve its aim to improve socio-economic condition of farmers and women in Satara district. The bank has provides a loan for all things as well as it takes attention to the returns of it. The bank provides loan for the foods of cattle's in the drought area and the rate of interest on that loan is only 4% rather than provides a loan for water to survive the fruits garden in the drought area.

3.6 PURPOSE WISE SCHEMES

1. Self- Helps Scheme

It is necessary to form self-help groups to facilitate loans, advances and other banking facilities in a manner to eradicate poverty of peasants, landless, artisans, women's down trodden etc. bank has formed rules and policy to make financial assistance to self-help groups through primary agriculture credit society within minimum documentation.
