## C O N T E N T S

Chapter	T i t l e	Page
I	INTRODUCTION ...	1
II	REVIEW OF LITERATURE ...	6
III	MATERIAL AND METHODS -	
	A - Plant Material ...	28
	B - Methods ...	28
	1) Growth ...	28
	2) Inorganic constituents ...	28
	i) Quantitative estimation of inorganic constituents ...	28
	ii) Determination of "Free space" of roots ...	30
	iii) Root anatomy ...	30
	3) Organic constituents ...	31
	4) Enzymes ...	31
IV	RESULTS AND DISCUSSION -	
	A) Effect of salinity on growth ...	32
	B) Effect of salinity on inorganic constituents ...	36
	1) Sodium and chloride ...	36
	2) Potassium ...	40
	3) Calcium ...	43
	4) Phosphorus ...	45
	5) Magnesium ...	48
	6) Iron ...	50

Chapter	T i t l e	Page
IV	C) Effect of salinity on root system ...	54
	1) Morphology ...	54
	2) "Free space" development in roots	55
	3) Anatomy ...	56
	D) Effect of salinity on organic constituents	59
	1) Titratable acid number (TAN) ...	59
	2) Chlorophylls ...	62
	3) Carbohydrates ...	66
	4) Polyphenols ...	72
	5) Total Nitrogen ...	73
	6) Proline ...	75
	E) Effect of salinity on some enzymes ...	76
	1) Hydroxyperoxidase ...	77
	i) Peroxidase ...	79
	ii) Catalase ...	80
	2) Hydrolases ...	81
	i) Acid Phosphatase ...	81
	3) Nitrate reductase ...	83
V	SUMMARY AND CONCLUSIONS ...	87
	BIBLIOGRAPHY ...	96
