No.	Title	Page
	INTRODUCTION	1
CHAPTER I	REVIEW OF LITERATURE	
	1) Historical account	7
	2) Methods for study of the enzyme.	14
	3) Properties	30
	4) Distribution and localization of enzyme	35
	5) Regulation of enzyme	
	a) Hormonal regulation	38
	b) Regulation by other chemicals	39
	c) Environmental regulation	45
	d) Diurnal fluctuations in enzyme activity	53
	6) Nitrate reductase activity and productivity.	55
	7) Brief account of <u>Crotalaria</u> .	57
CHAPTER II	MATERIALS AND METHODS	
	A) Study of nitrate reductase activity in different species of <u>Crotalaria</u> .	66
	B) Study of enzyme activity in different plant parts.	66
	C) Study of daily variation in nitrate reductase activity.	67
	D) Study of changes in nitrate reductase activity during growth of <u>C. juncea</u> .	67
	E) Study of effect of leaf position on enzyme activity.	68
	F) Study of regulation of enzyme nitrate reductase	68
	a) Influence of light on enzyme activity	68
	b) Study of substrate induction of enzyme activity.	69

No.	Title	Pages
	c) Study of hormonal regulation	70
	d) Influence of salt stress	71
	e) Influence of water stress on enzyme activity.	72
	f) Influence of presowing soaking treatment.	73
	G) Assay of the enzyme	73
CHAPTER III RESULTS AND DISCUSSION		
	A) Nitrate reductase activity in different <u>Crotalaria</u> species.	75
	B) Nitrate reductase activity in different plant parts.	78
	c) Changes in nitrate reductase activity during growth of <u>Crotalaria juncea</u> .	84
	D) Influence of leaf age and position on nitrate reductase activity.	86
	E) Variation in nitrate reductase activity during different hours of the day.	90
	F) Regulation of nitrate reductase activity in germinating seeds of <u>Crotalaria juncea</u> .	
	a) Light	94
	b) Influence of different nitrates	97
	c) Influence of growth regulators.	103
	d) Effect of water stress	112
	e) Effect of salt stress	115
	f) Effect of seed pretreatment	121
CHAPTER IV	SUMMARY AND CONCLUSIONS	128
	BIBLIOGRAPHY	137
	STATEMENT I	173
	STATEMENT II	174
