

PREFACE

Before expressing my gratitude to those who helped me in the completion of this M.Phil. dissertation, I have to say a few words regarding the limitations of the study. First important thing is that this study is purely based on the secondary data (i.e. the annual reports of Rajarambapu Sahakari Bank Limited, Peth). Secondly, the study is based on the personal discussion with the General Manager and the Branch Manager of the bank. Thirdly, the objectives of the study are related with the nature and progress of deposits and pattern of advances of the bank during all the years under study. I could not get information regarding the classification of deposits as male depositors and female depositors. Again, I could not get information regarding castewise membership of the bank.

In the preparation of this dissertation many people helped me and it is my duty to express my heartfelt sense of deep gratitude towards them.
