## DEPARTMENT OF EDUCATION

## Lecturer Evaluation Questionnaire

This is a questionnaire designed to determine the features that Indian tertiary students use in evaluating the effectiveness of their lecturers as teachers.

Your responses to this questionnaire are <u>anonymous</u>. The data will be presented in an actual research report so please answer as honestly as possible.

In the questionnaire proper you will be asked to consider the lecturers you have had in your tertiary courses and select a GOOD and a POOR teacher. Try to limit your choice to lecturers that took the class for a least one term and who taught mainly using a lecturer/seminar format.

Begin by completing the background information below, then read the instructions at the bottom of this page.

1. What is your sex? (M or F)

| 2. | What degree are your enrolled for?   |  |              |
|----|--|--|--------------|
|    |  | 1<br>Teacher   | 2<br>Teacher |
| 3• | Is this class in your major subject area(s) YES/NO   |  |              |
| 4. | Number of students in this class (Approx.)   | 1 ( ) The second |              |
| 5• | What grade did you receive or do you expect to receive for this class? (e.g. A,B+, C etc.) |  |              |
| 6. | What is approximate age of this teacher? (in years)  |  |              |
| 7. | What is the name of the teacher 3  |  | ,            |
| 8. | What is sex of this teacher? (M or F)  |  |              |

After completing the above questions, read these instructions then start answering the questions on the following pages. Please respond to each item separately and do not refer back to your previous responses, even though some of the questions may be similar. Each of the questions is to be answered by placing on the line to the left of it a number from 1 to 9. The 9-point response scale is given near the top of each page. If a question is clearly not appropriate to the class, then put "O" or "N/A" (not applicable) on the line.

After you have completed the questions for the first lecturer (the GOOD teacher) select the <u>FIVE</u> questions that you consider were the most important in describing your overall learning experience in the class.

Then follow the same procedure for the second (the POOR) teacher.

## THANKS FOR YOUR CO-OPERATION :
