

LIST OF FIGURES

Figure No.		Page No.
I.1	Concept of Educational technology	6
I.2	Elton's Model for development	8
I.3	Components of Educational Technology (A system approach)	9
IV.1	Areawise distribution of statements of the interest inventory in Educational technology	51
IV.2	Criteria of good psychological test	63
IV.3	Distribution of female and male student teachers in sample	64
IV.4	Distribution of Urban and rural student teachers in sample	65
IV.5	Distribution of ET and Non ET student teachers in sample	66
V.1	Graph (1): Total scores of male and female student teachers	100
V.2	Graph (2): Scores of male and female student teachers in cognitive interest area	104
V.3	Graph (3): Scores of male and female student teachers in creative interest area	108

V.4	Graph (4):Scores of male and female student teachers in applied interest area	112
V.5	Graph(5): Scores of male and female student teachers in interest related to management	116
V.6	Graph(6): Scores of male and female student teachers in skill based interest area	120
V.7	Graph(7):Total scores of urban and rural student teachers	130
V.8	Graph(8): Scores of urban and rural student teachers in cognitive interest area	134
V.9	Graph (9): Scores of urban and rural student teachers in creative interest area	138
V.10	Graph (10):Scores of urban and rural student teachers in applied interest area	142
V.11	Graph (11):Scores of urban and rural student teachers in interest related to management	146
V.12	Graph(12):Scores of urban and rural student teachers in skill based interest area	150

V.13	Graph (13): Total scores of ET and Non ET student teachers	160
V.14	Graph (14): Scores of ET and Non ET student teachers in cognitive interest area	164
V.15	Graph (15): Scores of ET and Non ET student teachers in creative interest area	168
V.16	Graph (16): Scores of ET and Non ET student teachers in applied interest area	172
V.17	Graph (17): Scores of ET and Non ET student teachers in interest related to management	176
V.18	Graph (18): Scores of ET and Non ET student teachers in skill based interest area	180
