## ACKNOWLEDGEMENT

The main source of inspiration for this research was ~~was~~ the late Principal Dr.B.A. Patil of Willingdon College, Sangli. He suggested, insisted, and I started working on this Project. The real tribute to him would be an intensive work on Physiological Studies in Capsicum annuum hybrid varieties. I have done it. Since he is no more with us, I deeply feel the absence of Dr.B.A.P. as he was popularly known.

After Dr.B.A. Patil, Prof.Dr.N.A. Rajmane has undertaken this difficult task of guidance. I would not have completed this work without the able guidance by him at every stage. Even though he was very busy and disturbed at many times by his mother's illness, he was always willing to offer help and guidance. He never stopped his help even in difficult situations and guided me practically at every step. I will always be grateful to him for his invaluable guidance in accomplishing this enormous task. I earnestly thank Dr.N.A. Rajmane for his help and guidance.

How can I forget the immense help given by Prof.Dr.B.A.Karadge and Prof.Dr.P.D. Chavan. They provided me the latest literature and many ready references. They helped me in giving many creative ideas. This work would not have been completed without their colossal help.

I must not forget to thank Prof.S.M. Kulkarni, Prof.Dr.Magdum for their encouragement in completing this work.

Special mention should also be made of Prof.Dr.H.K. Pawar of Agricultural University, Dapoli for his help in this work.

The visit to ICRISAT and Dr.Deepak Pawar of Hyderabad has boosted my spirits.

I am offering my special thanks to Dr.J.D. Patil of Krishi Vidyalay, Digraj for his help.

I will be failing in my duty if I do not mention the name of Mr.Sunil Koshtee, Consulting Engineer from Bombay, who has whole-heartedly helped me in this mammoth task of graph-drawings. His help in printing of graphs is invaluable.

- : 2 : -

I must thank Mr.Khambe and the staff members of the Environmental Protection Research Institution for their help.

I sincerely acknowledge the co-operation extended by Mr.Tamhankar and Mr. Pawar during practical work.

I can not conclude without thanking Prof. S. Phulari for very sincere help in co-ordinating this work.

Mention must be made of Varsha Commercial Institute of Vashi, New Bombay, for excellent and timely printing by them.

I must also thank all the family members of Koshtee family for their hospitality.

I thank my parents for always supporting me and appreciating my work. I must also thank my brothers Pravin, Pramod and Buntty.

My dear friend Itishree followed me like a shadow whenever and wherever I went in search of literature, references, experiments. We are two inseparable souls, residing in two bodies.

I might have missed many who have helped me in my work but whose names I might have left out through oversight. My thanks are due to all those who have directly and indirectly helped me in my work. I would once again express my most sincere and grateful thanks to all before concluding.

(Miss A.R. Walvekar)
