

LIST OF TABLES

Chapter	Table	Title	Page
IV	1	Effect of NaCl salinity on Growth of <u>P.aconitifolius</u> . ..	41
	2	Effect of NaCl salinity on biomass production and yield of <u>P.aconitifolius</u> . ..	43
	3	Effect of NaCl salinity on Relative growth rate (RGR), Net assimilation rate (NAR) and Leaf area ratio (LAR) in <u>P.aconitifolius</u> . ..	45
	4	Effect of NaCl salinity on acidity status (TAN) of leaf and stem of <u>P.aconitifolius</u> ..	47
	5	Effect of NaCl salinity of chlorophyll contents of young and mature leaves of <u>P.aconitifolius</u> . ..	49
	6.	Effect of NaCl salinity on polyphenol contents of young and mature leaves of <u>P.aconitifolius</u> . ..	

Chapter	Table	Title	Page
IV	7	Effect of NaCl salinity on Carbo- hydrate contents of leaf and pods of <u>P.aconitifolius</u>	.. 53
	8	Effect of NaCl salinity of total nitrogen content of leaves, stem, root and pods of <u>P.aconitifolius</u>	.. 56
	9	Effect of NaCl salinity on total protein content of leaf, stem, root and pods of <u>P.aconitifolius</u>	.. 58
	10	Effect of NaCl salinity on proline content of leaf, stem and roots of <u>P.aconitifolius</u>	.. 60
	11	Effect of NaCl salinity on the acti- vity of Peroxidase, Catalase, acid phosphatase and Nitrate reductase in the leaves and roots of <u>P.aconitifolius</u>	.. 63
	12	Effect of NaCl salinity on inorganic constituents of the leaves of <u>P.aconitifolius</u> (Soil Culture).	.. 66

Chapter	Table	Title	Page
IV	13	Effect of NaCl salinity on inorganic constituents of the stem of <u>P.aconitifolius</u> (Soil culture). ..	69
	14	Effect of NaCl Salinity on inorganic constituents of the root of <u>P.aconitifolius</u> (Soil Culture). ..	72
	15	Effect of NaCl and NaCl + CaCl ₂ Salinity (slow and shock treatments) on the inorganic constituents of the young leaves of <u>P.aconitifolius</u> (Sand Culture). ..	79
	16	Effect of NaCl and NaCl + CaCl ₂ Salinity (slow and shock treatments) on the inorganic constituents of the mature leaves of <u>P.aconitifolius</u> (Sand Culture). ..	82
	17	Effect of NaCl and NaCl + CaCl ₂ Salinity (slow and shock treatments) on the inorganic constituents of the stem of <u>P.aconitifolius</u> (Sand culture)	84

Chapter	Table	Title	Page
IV	18	Effect of NaCl and NaCl + CaCl ₂ Salinity (slow and shock treatments) on the inorganic constituents of the roots of <u>P. aconitifolius</u> (Sand Culture).	.. 86
