

## CONTENTS

Chapter	Title	Page.
	Introduction. . . . .	1
I	Review of Literature on Leguminous Halophytes. . . . .	5
	1 Introduction. . . . .	5
	2 Taxonomic divisions. . . . .	6
	3 Economic importance of Leguminosae. . . . .	9
	4 Halophytic legumes. . . . .	10
	5 Economic importance of leguminous halophytes. . . . .	14
	6 Physiological studies on leguminous halophytes. . . . .	18
	7 About <u>Caesalpinia</u> . . . . .	21
	8 About <u>Caesalpinia crista</u> L. . . . .	22
	A Synonyms . . . . .	22
	B Morphology . . . . .	22
	C Ecology . . . . .	24
	D Distribution . . . . .	24
	E Economic importance . . . . .	25
II	Materials and Methods. . . . .	26
	1 Materials . . . . .	26
	2 Methods . . . . .	27
	A Habitat analysis . . . . .	27
	a. soil analysis . . . . .	27
	i) Electrical conductivity and pH. . . . .	27
	ii) Inorganic constituents. . . . .	27
	b. Water analysis. . . . .	29
	B Germination studies. . . . .	29
	a. Characters of disseminules . . . . .	30
	b. Seed characters and seedling growth . . . . .	31
	c. Seed germination under saline conditions. . . . .	32

Chapter	Title	Page.
	C Plant analysis	32
	a. Analysis of inorganic constituents.	32
	i) Sodium and potassium	33
	ii) Magnesium	33
	iii) Phosphorus	35
	iv) Calcium, manganese, zinc and copper	36
	v) Iron	36
	vi) Chloride.	36
	b. Analysis of organic constituents.	38
	i) Moisture percentage	39
	ii) Chlorophylls.	39
	iii) Organic acids (TAN)	40
	iv) Carbohydrates.	40
	v) Total nitrogen	42
	vi) Free proline	43
	vii) Polyphenols	44
	viii) Crude lipids.	45
III	Results and Discussion.	47
	1 Habitat analysis	47
	2 Germination studies.	49
	A Characters of disseminules	49
	B Buoyancy test	51
	C Germinability test	53
	D Characters of seeds	56
	E Germination under saline conditions.	66
	3 Mineral nutrition	71
	A Inorganic constituents in different plant parts.	71
	a. Sodium	71
	b. Chloride	82
	c. Potassium	89
	d. Potassium : Sodium ratio	92
	e. Calcium	95
	f. Magnesium	101
	g. Phosphorus	104
	h. Iron	109
	i. Manganese	115
	j. Zinc	120
	k. Copper	124

Chapter	Title	Page.
	B Effect of leaf age on ionic contents in <u>Caesalpinia crista</u> L. leaves. ...	127
4	Organic constituents. ...	129
	A Moisture percentage ...	129
	B Chlorophylls ...	130
	C Titratable acid number ...	133
	D Carbohydrates ...	135
	E Total nitrogen ...	139
	F Free proline ...	142
	G Polyphenols ...	147
5	Seed analysis ...	149
	A Organic constituents ...	149
	B Inorganic constituents ...	152
IV	Summary and Conclusions. ...	155
	Bibliography. ...	161
