

LIST OF TABLES

No.	Title	Page
1	Distribution of <u>Avicennia</u> along west coast of Maharashtra.	... 12
2	Association of <u>Avicennia</u> species at different sites.	... 22
3	Phenophases of <u>Avicennia</u> species	... 24
4	Grain size distribution of soil from <u>Avicennia</u> zone.	... 35
5	Physico-chemical parameters of soil from different sites.	... 38
6	Chlorides and salinity of soil at different sites of estuaries.	... 44
7	Correlation coefficient values for three leaf characters along different sites.	... 55
8	Seasonal variation in moisture percentage from leaves of <u>Avicennia</u> species along different sites.	... 56
9	Morphological characterization of dtrichomes of <u>Avicennia</u> species.	... 68
10	Morphological features of pollen of <u>Avicennia</u> species.	... 80
11	Chlorophyll and polyphenol from the leaves of <u>Avicennia</u> species from different localities.	... 94

....

List of Tables "contd."

No.	Title	Page
12	Seasonal changes of chlorophylls and polyphenols from the leaves of <u>Avicennia</u> species from different localities.	... 96
13	Comparative account of chlorophylls and polyphenols from leaves of different <u>Avicennia</u> species.	... 99
14	Carbohydrates from different parts of <u>Avicennia</u> species for different seasons.	... 101
15	Comparison of carbohydrates from leaves of different species of <u>Avicennia</u> 103
16	Carbohydrates from fruits of <u>Avicennia</u> dwarf species.	... 105
17	Different levels of proteins from different parts of <u>Avicennia</u> species.	... 106
18	Leaf protein content of different <u>Avicennia</u> species.	... 108
19	Proteins from fruits of <u>Avicennia</u> dwarf species at different stages.	... 109
20	Energy content of <u>Avicennia</u> dwarf species and its comparison with other <u>Avicennia</u> species.	... 120
