Chapter No.	Title	Page No.
	Acknowledgements	
	List of Figures and tables	
	Abbreviations	
	Introduction	1
	Users of <i>Agave cantala</i> leaf extract	4
<b>I</b>	<b>Review of literature</b>	
	Introduction	7
	A) Review of literature on grape	8
	1) Introduction	8
	2) Origin and history of cultivation	9
	3) Taxonomic position	10
	4) Distribution in India	10
	5) Morphology	12
	6) Propagation	13
	7) Factors influencing growth of grapes	13
	8) Pests and diseases	16
	a. Downy mildew	16
	b. Powdery Mildew	19
	c. Mealybugs	21
	B) Review of Literature on Agave Species	23
	1) Introduction	23
	2) History of Agave	23
	3) Taxonomic position	24
	4) Distribution in India	25
	5) Morphology	26
	6) Propagation and Planting	27
	7) Factors influencing growth of Agaves	29
	8) Economic importance of Agave species	30
	a. Fibres	
	b. Food	
	c. Alcoholic beverages	
	d. Medicinal importance	
	9) Phytochemical studies	31
	10) Molluscicidal, spermicidal and antifungal properties of Agave	33

	C) Side-effects of chemical pesticides on plants	35
<b>II</b>	<b>Material and Methods</b>	
	A) Plant material	41
	B) Preparation of Agave leaf extract	41
	1) Application of Agave leaf extract	42
	2) Selection of Grape plant	42
	C) Methods	
	1) Inorganic constituents	43
	a. Preparation of acid digest	
	b. Estimation of Phosphorous	43
	2) Organic Constituents	
	a. Moisture percentage	44
	b. Pigments	
	i) Chlorophylls	44
	ii) Carotenoids	45
	b. Carbohydrates	46
	i) Reducing sugars	
	ii) Total sugars	
	iii) Starch	
	c. Total polyphenols	47
	3) Enzymes	
	a. Catalase	48
	b. Peroxidase	48
	c. Polyphenol oxidase	48
	d. Invertase	49
<b>III</b>	<b>Result and Discussion</b>	
	A) Inorganic constituents.	
	a. Nitrogen	51
	b. Phosphorus	56
	c. Potassium	59
	d. Calcium	65
	e. Magnesium	69
	f. Iron	73
	g. Manganese	78
	h. Zinc	80
	i. Copper	83
	j. Molybdenum	87
	k. Cobalt.	89

B) Organic Constituents	
a. Moisture percentage	92
b. Photosynthetic pigments	
i. Chlorophylls	93
ii. Carotenoids	97
c. Carbohydrates	100
i. Reducing sugars	101
ii. Total sugars	103
iii. Starch	105
d. Total polyphenols	107
C) Enzymes	
a. Catalase	111
b. Peroxidase	114
c. Polyphenol oxidase	117
e. Invertase	120
<b>IV</b>	
<b>Summary and Conclusions</b>	125
Bibliography	139
Statement- I	
Statement - II
