LIST OF FIGURES

FIGURE	TITLE	AFTER PAGE
1.	Effect of NaCl salinity on germination % in *J. curcas* L.	53
2.	Effect of NaCl salinity on moisture % and dry matter content in seedlings of *J. curcas* L.	57
3.	Effect of NaCl salinity on total sugar, reducing sugars and total carbohydrates content in seedlings of *J. curcas* L.	63
4.	Effect of NaCl salinity on TAN, total nitrogen, crude protein, total lipid content in seedlings of *J. curcas* L.	66
5.	Effect of NaCl salinity on proline, in seedlings of *J. curcas* L.	71
6.	Effect of NaCl salinity on Na, Ca, and K content in seedlings of *J. curcas* L.	77
7.	Effect of NaCl salinity on P, Cl, Fe and Mg content in seedlings of *J. curcas* L.	81
8.	Effect of salinity on height of shoot, length of root and average number of leaves per plant in *J. curcas* L.	99
9.	Effect of NaCl salinity on chlorophylls in in *J. curcas* L.	105
10.	Effect of NaCl salinity on TAN in leaves, stem and roots of *J. curcas* L.	108
11.	A. Effect of NaCl salinity on reducing sugar sugar and total sugars in *J. curcas* L.	112
	B. Effect of NaCl salinity on starch and total carbohydrates in *J. curcas* L.	112
12.	Effect of NaCl salinity on nitrogen, polyphenol content in *J. curcas* L.	116

FIGURE	TITLE	AFTER PAGE
12.	A.Effect of NaCl salinity on proline in leaves, stem and roots of J. curcas L.	121
13.	Effect of NaCl salinity on K and Na content in J. curcas L.	126
14.	Effect of salinity on P and Fe content in in J. curcas L.	126
15.	Effect of salinity on Ca content in J. curcas L.	126
16.	Effect of NaCl salinity on Cl and Mg content in J. curcas L.	126
17.	Effect of different forms of nitrogen fert. on height of shoot and average number of leaves per plant in J. curcas L.	151
18.	Effect of different nitrogen fert.on chlorophyll content in J. curcas L.	154
19.	Effect of different nitrogen fert.on TAN in J. curcas L.	155
20.	Effect of different forms of nitrogen fert. on carbohydrate contents in J. curcas L.	158
21.	Effect of different forms of nitrogen ferti. on nitrogen and crude protein content in different parts of J. curcas L.	159
22.	Effect of different forms of nitrogen ferti. on proline and polyphenol content in J. curcas L.	161
23.	Effect of different forms of nitrogen ferti. on Na content in J. curcas L.	176
24.	Effect of different forms of nitrogen ferti. on P content in J. curcas L.	176

FIGURE	TITLE	AFTER PAGE
25.	Effect of different forms of nitrogen ferti. on K content in J. curcas L.	176
26.	Effect of different forms of nitrogen ferti. on Ca content in J.curcas L.	176
27.	Effect of different forms of nitrogen ferti. on Cl content in J. curcas L.	176
28.	Effect of different forms of nitrogen ferti. on Fe content in J.curcas L.	176

PLATE 1 : Jatropha curcas L. plant.(Erand Mogli/ Ratan Jyot)

PLATE 2 : Effect of NaCl salinity on growth and development of Jatropha curcas L.
