

### ACKNOWLEDGEMENT

I am privileged to write my feeling here about those soules who extended their help directly or indirectly in completion of this work.

At the outset I owe dept of gratitude to my teacher and guide late Dr. J.D. Nimbalkar who's relentless guidance inspired me to complete experimental part of this work. His untimely death left me in wilderness. The work would not have come to this form without the help of Dr. B.A. Hegde, Department of Botany, Shivaji University, Kolhapur to whom I owe my gratitude.

My thanks are also due to the Shivaji University authorities and to the Head of the Department of Botany for extending facilities to complete my work.

My sincere thanks are to Principal, Shantiniketan Mahavidyalaya, Sangli and Prof. C.S. Magdum, Head, Department of Botany, Shantiniketan Mahavidyalaya, Sangli for encouragement.

My special thanks are due to Dr. Shinde, Agronomist, Regional Sugarcane and Jaggary research station, Kolhapur for supplying the plant material and to Dr. Shingte, Agriculture College, Pune (MPKV) for extending co-operation to use Atomic absorption spectrophotometer.

(ii)

My thanks are also due to my research colleagues Dr. T.M. Patil, Prof. K.N. Dhumal, Smt. Shaila Patil and my friends Manikrao Salunkhe and Ajit Patil for their co-operation.

I express my sincere thanks to Shri Chougule for prompt and neat typing and to Shri Deshmukh M.R. for photography.

Last but not the least my thanks are also due to my wife Sou. Vijayanti Patil and beloved children dear Vidhya and Bhaskar for facilitating me to complete this work.
