

## LIST OF FIGURES

<u>Figure</u>	<u>Description</u>	<u>Page No.</u>
1	Effect of various concentrations of NaCl salinity on various growth parameters (plant height, leaf length, leaf breadth, No. of leaves) of <u>Curcuma longa</u> - <u>Sugamdhum</u> variety.	46
2	Effect of various concentrations of NaCl salinity on various growth parameters (plant height, leaf length, leaf breadth, No. of leaves) of <u>Curcuma longa</u> - <u>Erode</u> variety.	47
3	Effect of various concentrations of NaCl salinity on leaf area of <u>Curcuma longa</u> varieties <u>Sugamdhum</u> and <u>Erode</u> .	48
4	Effect of various concentrations of NaCl salinity on various growth parameters (root length, length of the finger, girth of the finger) of <u>Curcuma longa</u> <u>Sugamdhum</u> variety.	49
5	Effect of various concentrations of NaCl salinity on various growth parameters (root length, length of the finger and girth of the finger) of <u>Curcuma longa</u> <u>Erode</u> variety.	49a&b
6	Effect of various concentrations of NaCl salinity on chlorophyll content in <u>Curcuma longa</u> varieties - <u>Sugamdhum</u> and <u>Erode</u> .	52,53
7	Effect of various concentrations of NaCl salinity on Titratable acid number (TAN) of <u>Curcuma longa</u> varieties.	56,57

<u>Figure</u>	<u>Description</u>	<u>Page No.</u>
8	Effect of various concentrations of NaCl salinity on polyphenols content in <u>Curcuma longa</u> varieties - <u>Sugamdhum</u> and <u>Erode</u> .	61,62
9	Effect of various concentrations of NaCl salinity on proline content in <u>Curcuma longa</u> varieties <u>Sugamdhum</u> and <u>Erode</u> .	65,66
10	Effect of various concentrations of NaCl salinity on nitrogen content in <u>Curcuma longa</u> varieties <u>Sugamdhum</u> and <u>Erode</u> .	69,70
11	Effect of various concentrations of NaCl salinity on carbohydrate content in <u>Curcuma longa</u> variety <u>Sugamdhum</u> leaves.	70
12	Effect of various concentrations of NaCl salinity on carbohydrate content in <u>Curcuma longa</u> variety <u>Sugamdhum</u> rhizome.	76
13	Effect of various concentrations of NaCl salinity on carbohydrates content in <u>Curcuma longa</u> variety <u>Sugamdhum</u> root.	77
14	Effect of various concentrations of NaCl salinity on carbohydrates content in <u>Curcuma longa</u> variety <u>Erode</u> leaves.	78
15	Effect of various concentrations of NaCl salinity on carbohydrates content in <u>Curcuma longa</u> variety <u>Erode</u> rhizome.	79

Fig.No.	Description	Page No.
16.	Effect of various concentrations of NaCl Salinity on sodium content of <u>Curcuma longa</u> -Sugamdhum variety.	91
17.	Effect of various concentrations of NaCl Salinity on sodium content of <u>Curcuma longa</u> -Erode variety.	92
18.	Effect of various concentrations of NaCl Salinity on chloride content of <u>Curcuma longa</u> -Sugamdhum variety.	93
19.	Effect of various concentrations of NaCl Salinity on chloride content of <u>Curcuma longa</u> -Erode variety.	94
20.	Effect of various concentrations of NaCl Salinity on potassium content of <u>Curcuma longa</u> -Sugamdhum variety.	98
21.	Effect of various concentrations of NaCl Salinity on potassium content of <u>Curcuma longa</u> -Erode variety.	99
22.	Effect of various concentrations of NaCl Salinity on calcium content of <u>Curcuma longa</u> -Sugamdhum variety.	102
23.	Effect of various concentrations of NaCl Salinity on calcium content of <u>Curcuma longa</u> -Erode variety.	103
24.	Effect of various concentrations of NaCl Salinity on phosphorus content of <u>Curcuma longa</u> -Sugamdhum variety.	106
25.	Effect of various concentrations of NaCl Salinity on phosphorus content of <u>Curcuma longa</u> -Erode variety.	107
26.	Effect of various concentrations of NaCl Salinity on magnesium content of <u>Curcuma longa</u> -Sugamdhum variety.	110
27.	Effect of various concentrations of NaCl Salinity on magnesium content of <u>Curcuma longa</u> -Erode variety.	111
28.	Effect of various concentrations of NaCl Salinity on iron content of <u>Curcuma longa</u> -Sugamdhum variety.	114

Fig No.	Description	Page No.
29.	Effect of various concentrations of NaCl Salinity on iron content of <u>Curcuma longa</u> -Erode variety.	115
30.	Effect of various concentrations of NaCl Salinity on manganese content of <u>Curcuma longa</u> -Sugamdhum variety.	118
31.	Effect of various concentrations of NaCl Salinity on manganese content of <u>Curcuma longa</u> -Erode variety.	119
32.	Effect of various concentrations of NaCl Salinity on copper content of <u>Curcuma longa</u> -Sugamdhum variety.	121
33.	Effect of various concentrations of NaCl Salinity on copper content of <u>Curcuma longa</u> -Erode variety.	122
34.	Effect of various concentrations of NaCl Salinity on zinc content of <u>Curcuma longa</u> -Sugamdhum variety.	125
35.	Effect of various concentrations of NaCl Salinity on zinc content of <u>Curcuma longa</u> -Erode variety.	126
36.	Effect of various concentrations of NaCl Salinity on curcumin content of <u>Curcuma longa</u> -Sugamdhum variety.	129
37.	Effect of various concentrations of NaCl Salinity on curcumin content of <u>Curcuma longa</u> -Erode variety.	130
