

## List of Tables

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
1.	Effect of monocrotophos and monocrotophos in combination with bavistin. on germination, root, shoot, length and phytotoxicity in soybean. ....	58
2.	Effect of foliar application of monocrotophos in combination with bavistin on leaf area expansion in soybean (50 days old). ....	63
3.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on over all growth of soybean (50 days old). ....	65
4.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on dry weight in soybean (50 days old). ....	67
5.	Effect of foliar application of monocrotophos on stomatal regulation. ....	69
6.	Effect of foliar application of monocrotophos in combination with bavistin on stomatal regulation. ....	71
7.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on chlorophyll and carotenoid content in the leaves of soybean (50 days old). ....	80
8.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on nitrogen and protein content in leaf, stem and root of soybean (50 days old). ....	88
9.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on amino acid composition in soybean leaves (50 days old). ....	91
10.	Effect of foliar application of monocrotophos and monocrotophos in combination with bavistin on nitrate and nitrite reductase activity in soybean (50 days old). ....	97
11.	Effect of foliar application of monocrotophos on mineral content in soybean (50 days old). ....	101
12.	Effect of foliar application of monocrotophos in combination with bavistin on mineral content in soybean (50 days old). ....	102
