

## *Acknowledgement*

*First and foremost, I would like to express my sincere and deepest gratitude to my guide Prof. Jay S. Samant. I have been extremely fortunate to work under his able guidance and his constant support has helped me immensely throughout the tenure of this research work. Active involvement in and dedication to all research students has always been his priority. It was great satisfaction to complete this dissertation under his supervision. My special thanks are due to him for providing me assistanceship on the NAAQM, CPCB project of which he was Principal Investigator.*

*My sincere thanks are due to Dr. P. D. Raut, Head, Department of Environmental Science for his support throughout the work and useful suggestions for my work. I am also thankful to Dr. U. B. Aital for his kind guidance in statistical analysis of the data. I am also thankful to Dr. (Mrs.) A. J. Samant for the helping in framing questionnaire and social survey.*

*I would like to thank all the teaching and non teaching staff of our department for their every possible help during the present research work. I am pleased to acknowledge the excellent support extended by my friends and colleagues on the Air Pollution Monitoring Project and in the Department.*

*Finally, I express my profound gratitude and immense debt to my family members who always stood by me at the time of difficulties. This work would not have been completed without my family's strong support, affection, constant motivation, with out any hesitation and expectation. My wife Sunetra is new addition in this family.*

*I wish to specially acknowledge MPCB's financial support, for three years during the course of this research. At last I am very glad to acknowledge the people who have contributed in this work. I owe deep gratitude to them all for their help, as I would not be able to do justice just by mentioning their names.*

*Sudesh S. Manjarekar.*
