

## LIST OF TABLES

	<u>Page</u>
 <u>CHAPTER - II</u>	
Table 2.1 Average slope of the region	14
2.2 Average annual rainfall and variability	24
2.3 Departure of annual rainfall from mean in percent	27
2.4 Seasonal rainfall in percent and seasonal co-efficient of variability in percent	30
2.5 Kharif and Rabi season rainfall and variability	32
2.6 Intensity of rainfall	37
2.7 Density of population	39
2.8 Occupational structure in percentage to total workers	40
2.9 Livestock in drought prone area of Sangli district	43
 <u>CHAPTER - III</u>	
Table 3.1 Frequency and intensity of drought in drought prone area of Sangli	58
 <u>CHAPTER - IV</u>	
Table 4.1 Net and gross sown area and intensity of cropping	70
4.2 Change in area under various crops	73

List of Tables cont..

	<u>Page</u>
4.3 Seasonwise cropped area	76
4.4 Yield of crops and water balance parametres	81
4.5 Correlation between yields and water balance parametres	82
4.6 Cropwise area irrigated and its percentage to gross irrigated area	89
4.7 Water requirements and actual use of water for irrigation	91

CHAPTER - V

Table 5.1 Occupational groups and number of families selected	95
5.2 Subsidiary occupations	98
5.3 Families receiving money from out side the region	99
5.4 Number of families taking loan	101
5.5 Utilization of loans	102
5.6 Temporary migration of persons from 180 selected families	104
5.7 Knowledge of drought resistant varieties	106

CHAPTER - VI

Table 6.1 Recommended drought resistant varieties according to soil types	116
