

APPENDIX-II

A Note on Perception Study entitled:

PERCEPTIONS OF THE VILLAGERS IN THE CATCHMENT AREA OF  
WARNA DAM ABOUT THEIR RESETTLEMENT

To understand the perceptions of the villagers living in the catchment area of Warna dam towards their resettlement we selected 5 villages, i.e., 20 per cent of the total villages, which belong to different geographical environments. In every village the master list of families was prepared. This list served as a sampling frame. Then every list was arranged in alphabetical order and every fifth family from the list was selected. The villagewise distribution of the selected families is given below:

Village	Total number of families	No. of families selected
Kulyachiwadi	60	12 (20.0)
Zolambi	73	14 (19.0)
Takale	65	13 (20.0)
Rundiv	32	6 (19.0)
Chandoli (Kd)	23	5 (22.0)
<u>TOTAL:</u>	<u>253</u>	<u>50 (20.2)</u>

Thus, out of 253 families, 50 families i.e., 20 per cent were selected, contacted and individually interviewed to understand their perception about the

## APPENDIX-II contd.

resettlement and rehabilitation. The interview schedule was prepared in Marathi. Care was taken to see that the respondents would be representing the whole village, as well as their capacity to influence the process of taking decision regarding the shifting of the village i.e., Sarpanch, teachers, leaders, activists etc. are supposed to be involved in the process.

## PERCEPTIONS OF THE VILLAGERS TOWARDS THEIR RESETTLEMENT

Sr. No.	Preferences Percentage Weightage	(a) = No. respondents, (b) = Weightage										Total Weightage	Average Weightage
