

CONTENTS

| Chapter | Title | Page No. |
|---------|---|----------|
| | List of Tables/Figures | |
| | Abbreviations | |
| | INTRODUCTION | 1 |
| I | REVIEW OF LITERATURE | 5 |
| | A) About the genus | 5 |
| | B) Physiology of senescence | 6 |
| | C) Hormonal Regulation | 10 |
| II | MATERIALS AND METHODS | 12 |
| | A) Material | 12 |
| | B) Methods | 13 |
| | 1) Moisture content and dry matter analysis | 13 |
| | 2) Photosynthetic pigments | 14 |
| | a. Chlorophylls | 14 |
| | b. Carotenoids | 16 |
| | 3) Total polyphenols | 16 |
| | 4) Carbohydrate status | 17 |
| | a. Reducing sugars | 17 |
| | b. Total sugars | 17 |
| | c. Starch | 17 |

| | |
|---|----|
| 5) Inorganic Constituents | 19 |
| a. Preparation of acid digestion | 19 |
| i) Sodium, Potassium, Calcium | |
| Magnesium and Iron | 21 |
| ii) Phosphorus | 21 |
| 6) Enzyme studies | 22 |
| a. Nitrate reductase | 22 |
| b. Peroxidase | 23 |
| c. Polyphenol oxidase | 24 |
| d. Superoxide dismutase | 25 |
| | |
| III RESULTS AND DISCUSSION | 27 |
| Study of influence of Phytohormone | |
| A) Organic Constituents | 27 |
| 1) Moisture content and dry matter analysis | 27 |
| 2) Photosynthetic pigment studies | 30 |
| a. Chlorophylls | 30 |
| b. Carotenoids | 34 |
| 3) Total polyphenols | 36 |
| 4) Carbohydrate status | 38 |
| a. Reducing sugars | 38 |

| | |
|----------------------------|----|
| b. Total sugars | 39 |
| c. Starch | 39 |
| B) Inorganic Constituents | 40 |
| 1) Sodium, | 40 |
| 2) Potassium, | 42 |
| 3) Calcium | 46 |
| 4) Magnesium | 48 |
| 5) Iron | 50 |
| 6) Phosphorus | 52 |
| C) Biochemical Analysis | 56 |
| 1) Enzyme studies | 56 |
| a. Nitrate reductase | 56 |
| b. Peroxidase | 58 |
| c. Polyphenol oxidase | 60 |
| d. Superoxide dismutase | 61 |
| IV SUMMARY AND CONCLUSIONS | 65 |
| BIBLIOGRAPHY | 71 |
| Statement – I | |
| Statement – II | |
