

LIST OF TABLES

CHAPTER NO.	TABLE NO.	TITLE	PAGE NO.
IV	1	Seasonal mean concentration and percentage contribution of different biocomponents to the total airspora during 1 st November 2007 to 15 th June 2008	55 - 56 ✓
	2	Mean concentration and percentage contribution of different biocomponents to the total airspora Rabbi Season (Wheat) - 1 st November 2007 to 28 th February 2008. Summer Season (Groundnut) - 1 st March 2008 to 15 th June 2008.	57- 58 ✓
	3	Monthwise average percentage contribution of different biocomponents to the total airspora Rabbi Season (Wheat) - 1 st November 2007 to 28 th February 2008. Summer Season (Groundnut) - 1 st March 2008 to 15 th June 2008.	59 - 60 ✓
	4	Monthly percentage contribution of different biocomponents to the total airspora Rabbi Season (Wheat) - 1 st November 2007 to 28 th February 2008. Summer Season (Groundnut) - 1 st March 2008 to 15 th June 2008.	61- 62 ✓

	5	Seasonal mean concentration and percentage contribution of each spore group and other group to the total airspora during 1 st November 2007 to 15 th June 2008.	63 ✓
IV	6	Mean concentration and percentage contribution of each spore group and other group to the total airspora Rabbi Season (Wheat) - 1 st November 2007 to 28 th February 2008.	64 ✓
	7	Mean concentration and percentage contribution of each spore group and other group to the total airspora Summer Season (Groundnut) - 1 st March 2008 to 15 th June 2008.	65 ✓
	8	Monthly percentage contribution of each spore group and other group to the total airspora Rabbi Season (Wheat) - 1 st November 2007 to 28 th February 2008. Summer Season (Groundnut) - 1 st March 2008 to 15 th June 2008.	66 ✓
	9	Monthly variations in total spore count with respect to Temperature, Humidity and Rainfall	67 ✓
