

LIST OF TABLES		AFTER Page No.
Table 2.1	: Geomorphological features, Bhatya Vijaydurg area	12
Table 3.1	: Data for lineaments observed on topographic sheets and satellite imagery	27
Table 4.1	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for sixth order basin	32
Table 4.2 a	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 b	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 c	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 d	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 e	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 f	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 g	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32
Table 4.2 h	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for fourth order basin	32

LIST OF TABLES

AFTER  
Page No.

Table 4.3 a : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 b : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 c : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 d : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 e : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 f : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 g : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 h : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 i : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 j : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32

LIST OF TABLES

After  
Page No.

Table 4.3 k : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.3 l : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for third order basin	32
Table 4.4 a : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 b : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 c : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 d : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 e : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 f : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 g : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 h : Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32

LIST OF TABLES		AFTER Page No.
Table 4.4 i	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 j	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 k	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.4 l	: Bifurcation ratio, Length ratio, Drainage density and Const. of channel maintenance for second order basin	32
Table 4.5	: Bifurcation ratio for the basins of fifth order	33
Table 4.6	: Drainage density for the basins of fifth order	33
Table 4.7	: Constant of channel maintenance for the basins of fifth order	33
Table 4.8	: Hypsometric integral values for the basins of fifth order	38
Table 4.9	: General slope directions of the basins of fifth order	38
Table 4.10	: Relative relief categories and frequency percentage ( fifth order basin) of the Bhatya 2 Vijaydurg area (one km. grid)	40
Table 4.11	: Average slope frequency percent of fifth order basins in the area	42
Table 4.12	: Stream gradient index (G.I.) and geomorphic provinces of fifth order basins	42
Table 5.1	: Relative relief : frequency distribution of fifth order basins in the area	50

LIST OF TABLES

AFTER  
Page No.

Table 5.2 a :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 1 <sup>2</sup> (one km. grid)	50
Table 5.2 b :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 2 <sup>2</sup> (one km. grid)	50
Table 5.2 c :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 3 <sup>2</sup> (one km. grid)	50
Table 5.2 d :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 4 <sup>2</sup> (one km. grid)	50
Table 5.2 e :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 5 <sup>2</sup> (one km. grid)	50
Table 5.2 f :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 6 <sup>2</sup> (one km. grid)	50
Table 5.2 g :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 7 <sup>2</sup> (one km. grid)	50
Table 5.2 h :	Relative relief : frequency distribution and spatial coverages of fifth order basin no. 8 <sup>2</sup> (one km. grid)	50
Table 5.3 :	Mean and standard deviation calculated from relative relief analysis of fifth order basins in the area	50

LIST OF TABLES

Table 5.4	: Relative relief : higher frequency percentages in fifth order basins of the area	50
Table 5.5 a	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 1 2 ( one km. grid )	52
Table 5.5 b	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 2 2 ( one km. grid )	52
Table 5.5 c	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 3 2 ( one km. grid )	52
Table 5.5 d	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 4 2 ( one km. grid )	52
Table 5.5 e	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 5 2 ( one km. grid )	52
Table 5.5 f	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 6 2 ( one km. grid )	52
Table 5.5 g	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 7 2 ( one km. grid )	52
Table 5.5 h	: Average slopes : frequency distribution and spatial coverages of fifth order basin no. 8 2 ( one km. grid )	52

LIST OF TABLES		AFTER Page No.
Table 5.6	: Mean and standard deviation calculated from slope analysis of fifth order basins in the area	52
Table 5.7	: Average slope : higher frequency percentages in fifth order basins of the area	52
Table 5.8 a	: Morphometric parameters of sixth order basin in the area between Bhatya and Vijaydurg creeks	57
Table 5.8 b	: Morphometric parameters of fifth order basins in the area between Bhatya and Vijaydurg creeks	57
Table 5.8 c	: Morphometric parameters of fourth order basins in the area between Bhatya and Vijaydurg creeks	57
Table 5.8 d	: Morphometric parameters of third order basins in the area between Bhatya and Vijaydurg creeks	57
Table 5.8 e	: Morphometric parameters of second order basins in the area between Bhatya and Vijaydurg creeks	57
