

C E R T I F I C A T E

It gives me a great pleasure in certifying that the dissertation 'Morphological and Physiological Studies of Ascolichens' submitted by Tambat Vandana Shamrao, M.Sc., for the award of M.Phil. degree in Botany is an original piece of research work completed under my supervision. The findings reported in the dissertation are based on the up-to-date literature survey. To the best of my knowledge this piece of work has not been submitted for the award of any degree of any University.
