I really astonished to think that, one had hardly ever seen GOD, united accumulated, endless energy, in real life Yes! As the rule of materialistic science. "Total energy is universe is always unite and constant but energy may transform to different forms". I truly think that my Parents are really those different earthy reflections of our almighty. I bow my head to the feet of them for their foresight, sacrifices, love and blessings always showed on me, be it good or bad moments. May, I be worthy a live up to their desires and expectations.

I am greatly obliged to my husband and brothers for their immense love, emotional support and special providence.

I am thankful to Mr. Prasanna Betageri, of Microworld Computers, Belgaum for timely and excellent typographical work.

Last but not least, thanks a lot to thou GOD for giving me the opportunity to work.
