

## ACKNOWLEDGEMENTS

"What is there in a name ?

A rose by any other name will smell as sweet".

Even today I remember that fragrance which I received during my M.Sc. days. It is that rose, Dr.G.G.Asgekar who developed and nurtured an interest in me for "High speed mechanics" and since then he is the perpetual source of inspiration for me. Had it not been, but for his encouragement and excellent guidance, I doubt whether this piece of work would have been complete. I sincerely acknowledge with gratitude the valuable guidance given by him during this investigation.

I am extremely fortunate to have, a keen interest in my work and many suggestions and encouragement by Prof. L. Radhakrishna, Head, Department of Mathematics, Shivaji University, Kolhapur.

My thanks go to Dr.S.P. Gunaste, Devchand College, Arjunnagar for her kind co-operation.

I am grateful to the University Grants Commission, New Delhi for awarding me a Teacher Fellowship for one year.

I am extremely thankful to the Principal, Bhogawati College, Kurukali, and the Bhogawati Shikshan Prasarak Mandal who kindly permitted me to avail myself of a teacher

fellowship.

My thanks go to all my friends especially Mr.B.B. Kulkarni and Mr. Ajit Wadkar for their kind co-operation in constant studying.

Last but not the least, I would like to express my thanks to Shri Kumbhar who generously gave his time and produced very neat and clean typing, especially the mathematical format.

Shivaji University,  
Kolhapur.

Date : 21/8/1987

Mr. S.P.Raut.
