

CONTENTS

CHAPTER	TITLE	PAGE
I	<u>INTRODUCTION</u>	1
	1.1 Semiconductor Heterojunction and Solar Energy Conversion.	: 2
	1.2 Survey of Literature on CdS, PbS and Their Heterojunctions.	: 5
	1.3 Statement of the Problem	: 8
	References	: 10
II	<u>THEORETICAL BACKGROUND</u>	13
	2.1 Introduction	: 14
	2.2 Types of Solar Cells	: 15
	2.3 Electrical Characteristics of Solar Cells	: 22
	2.4 Solar Cell Output Parameters	: 29
	2.5 Effect of Resistance on Performance of Solar Cell.	: 35
	2.6 Measurement of Series Resistance	: 36
	2.7 Basically Required Properties of Materials for Use in Solar Cells.	: 40
	References	: 41

....

CHAPTER	TITLE	PAGE
III	<u>DEPOSITION OF SEMICONDUCTING FILMS AND THEIR CHARACTERISATION SUITABLE FOR HETEROJUNCTIONS</u>	42
	3.1 Introduction	: 43
	3.2 Preparation of FTO	: 43
	3.3 Controlled Precipitation Chemical Bath Deposition Technique.	: 44
	3.4 Post Preparative Treatments	: 49
	3.5 Characterisation of the Films.	: 49
	References	: 61
IV	<u>STUDIES ON CdS-ELECTROLYTE JUNCTION SOLAR CELLS</u>	63
	4.1 Introduction	: 64
	4.2 Experimental	: 64
	4.3 Effect of Annealing on Properties of CdS-Electrolyte Junction Solar Cells.	: 67
	References	: 76
V	<u>STUDIES ON CdS-PbS HETEROJUNCTION SOLAR CELL</u>	78
	5.1 Introduction	: 79
	5.2 Experimental	: 80
	5.3 Result and Discussion	: 82
	References	: 90
VI	<u>SUMMARY AND CONCLUSION</u>	: 91
	BIOGRAPHICAL DATA	: 96
