

LIST OF FIGURES

Figure No.	Title	Page
1.1	Fluorescence and Phosphorescence	... 28
1.2	Radiative transitions	... 29
1.3	Non-radiative transitions	... 30
1.4	Flow chart for the mechanism of electroluminescence	... 31
1.5	Energy band diagram for a p-n junction	... 32
1.6	Acceleration collision mechanism of electroluminescence	... 33
2.1	Experimental set-up for electroluminescence	... 52
2.2	Photograph of experimental set-up used in electroluminescence studies	.. 53
2.3	Circuit diagram of wide band amplifier	... 54
2.4	Electroluminescence (EL) Cell	... 55
2.5	Spectral response curve for IP21 PM tube	... 56
2.6	Circuit diagram of D.C. power supply and PM tube	... 57
2.7	Experimental set up for spectral studies of electroluminescence	... 58
3.1	Plots of Brightness(B) versus voltage(V) for sample S ₅ , S ₆ , S ₁₀	... 88
3.2	Plots of log B versus V for sample S ₅ , S ₆ , S ₉	... 89
3.3	Plots of log B versus log v for sample S ₁ , S ₅ , S ₉	... 90
3.4	Plots of log B versus log V for sample S ₁ , S ₇	... 91
3.5	Plots of log B versus log V for sample S ₄	... 92
3.6	Plots of log B versus log V for sample S ₃ , S ₅	... 93
3.7	Plots of log B versus $1000/\sqrt{V}$ for sample S ₂	... 94
3.8	Plots of log B versus $1000/\sqrt{V}$ for sample S ₅ , S ₁₀	... 95
3.9	Plots of log B versus $1000/\sqrt{V}$ for sample S ₁ , S ₈	.. 96
3.10	Plots of log B versus $1000/V$ for sample S ₂ , S ₅ , S ₆	... 97

....

Figure No.	Title	Page
3.11	Plots of $\log (B/v)$ versus $1000/ V$ for sample S_5, S_6, S_{10}	... 98
3.12	Plots of $\log (B/v)$ versus $1000/\sqrt{V}$ for sample S_5, S_6, S_{10}	... 99
3.13	Plots of $\log B$ versus $\log F$ for sample S_4, S_7	... 100
3.14	Plots of $\log B$ versus $\log F$ for Sample S_6, S_9, S_{10}	... 101
3.15	Plots of $\log B$ versus $\log I$ for sample S_1, S_8, S_{10}	... 102
3.16	Plots of $\log I$ versus \sqrt{V} for sample S_1, S_8, S_{10}	... 103
3.17	Plots of $\log I$ versus V for sample S_1, S_8, S_{10}	... 104
3.18	Plots of $\log I$ versus $\log V$ for sample S_1, S_8, S_{10}	... 105
3.19	a) Plots of B versus W b) Plots of B/W versus W	... 106
3.20	Plots of B versus Er concentration by wt.% at constant frequency.	... 107
3.21	Plots of intensity versus wavelength (λ)	... 108
4.1	Bragg's principle of X-ray powder diffraction	... 120
4.2	X-ray diffractometer schematic	... 121
4.3	Diffraction pattern of ZnO (B_1)	... 122
4.4	Diffraction pattern of ZnCl:Cu (B_2)	... 123
4.5	Diffraction pattern of ZnO:Cu:Er (S_2)	... 124
4.6	Diffraction pattern of ZnO:Cu:Er (S_3)	... 125
4.7	Diffraction pattern of ZnO:Cu:Er (S_4)	... 126
4.8	Diffraction pattern of ZnO:Cu:Er (S_5)	... 127
