PREFACE

ACKNOWLEDGEMENT

## CHAPTER : 1 - A BRIEF SURVEY ON GROWTH OF SINGLE CRYSTALS IN GELS

1.1	Introduction	...	...	1
✓1.2	Crystal Growth	...	...	5
✓1.2.1	Crystal Growth By Reaction	...	...	5
✓1.2.2	Crystal Growth By Chemical Reaction...	...	...	6
✓1.2.3	Crystal Growth By Complex Dilution Method	...	...	7
✓1.2.4	Crystal Growth By Reduction Of Solubility	...	...	7
	References	...	...	9

## CHAPTER : 2 - SILICA GEL STRUCTURE AND PROPERTIES

✓2.1	Gel Preparation and Properties	...	...	13
✓2.2	Gelling Mechanism and Structure of Silica Hydrogels	...	...	15
✓2.2.1	Types of GELS	...	...	19
✓2.3	Growth Mechanism	...	...	20
✓2.3.1	Functions of Gels	...	...	20
2.3.2	Ultimate Crystal Size and Reimplantation	...	...	21
2.3.3	Cusp Formation	...	...	22
	References	...	...	24

## CHAPTER : 3 - GROWTH OF SINGLE CRYSTAL OF POTASSIUM DIHYDROGEN PHOSPHATE

3.1	Introduction	...	...	25
3.2	Experimental And Observation	...	...	26

3.3	Result and Discussion	...	...	28
3.4	Growth of KDP; Ni and KDP : CO CRYSTALS			29
3.5	Experimental	...	...	29
3.6	Result And Discussion	...	...	30
3.7	Conclusion	...	...	31
	References	...	...	32

CHAPTER : 4 - CHARACTERIZATION OF GEL GROWN KDP  
CRYSTALS BY PHYSICAL AND CHEMICAL METHODS

4.1	Introduction	...	...	33
4.2	Experimental	...	...	33
4.2.1	X-ray Diffraction Analysis		...	33
4.2.2	Chemical Analysis	...	...	34
4.3	Result and Discussion	...	...	35
4.3.1	Result On X-ray Analysis		...	35
4.3.2	Result On Chemical Analysis		...	37
4.4	Conclusion	...	...	38

CHAPTER : 5 - DIELECTRIC PROPERTIES OF GEL GROWN  
KDP CRYSTALS

5.1	Introduction	...	...	39
5.2	Experimental	...	...	40
5.3	Result and Discussion	...	...	41
5.4	Conclusion	...	...	42
	References	...	...	43

CHAPTER : 6 - GENERAL CONCLUSION AND SCOPE FOR  
FUTURE WORK IN GEL GROWTH

6.1	General Conclusions	...	...	44
6.2	Scope For Future Work	...	...	45
