CHAPTER	TITLE	PAGE
	INTRODUCTION	... 1
I	AMORPHOUS SEMICONDUCTORS	... 6
1.1	Fundamental Approach	... 6
1.1.1	Structure	... 8
1.1.2	Studies of the Structure of Amorphous Material	... 9
1.1.3	Chemical Structure	... 11
1.2	Band Structure	... 13
1.2.1	Localized States	... 14
1.2.2	Anderson Localization	... 16
1.3	Band Models	... 19
1.4	Mobility Shoulder	... 23
1.5	Defects in Amorphous Materials	... 24
1.6	Transport Properties	... 29
1.6.1	DC Electrical Conductivity	... 29
1.6.2	Conduction Due to Motion of Small Polaron	... 38
1.6.3	Thermo Electric Effects in Semiconductors	... 42
1.6.4	Seebeck Voltage and Thermoelectric Power	... 45
1.6.5	Thermopower	... 48
1.7	Magnetic Properties	... 51
1.7.1	Diamagnetism	... 53
	REFERENCES	... 56

CHAPTER	TITLE	PAGE
II	EXPERIMENTAL DETAILS	... 59
	2.1 Preparation of Samples	... 59
	2.2 X-ray Diffraction	... 63
	2.3 I-V Characteristics	... 64
	2.4 DC Electrical Conductivity	... 66
	2.5 Thermoelectric Power	... 73
	2.6 Magnetic Susceptibility Measurements	... 83
	2.7 Magnetic Susceptibility Variation with Temperature	... 88
	REFERENCES	... 91
III	RESULTS AND DISCUSSION	... 92
	Summary and Conclusions	... 102
	REFERENCES	... 107
