

## C O N T E N T S

Chapter-I	Organic reagents used in inorganic analysis	1
Chapter-II	Methyl thienylketone thiosemicarbazone as a spectrophotometric reagent for ruthenium (III)	
	A) Synthesis and characterisation of methyl thienylketone thiosemicarbazone	9
	B) Methyl thienylketone thiosemicarbazone as a spectrophotometric reagent for ruthenium (III)	18
Chapter-III	Photometric determination of Palladium (II) with 1-(2',4',5'-trichlorophenyl)-4,4,6-trimethyl-(1H,4H)-2-pyrimidinethiol	
	A) Synthesis and characterisation of 1-(2',4',5'-trichlorophenyl)-4,4,6-trimethyl -(1H,4H)-2-pyrimidinethiol	36
	B) Determination of palladium (II)	43
Chapter-IV	Spectrophotometric determination of rhenium (VI) after extraction of its 2-furanthiocarboxhydrazide complex with molten naphthalene	
	A) Synthesis and characterisation of 2-furanthiocarboxhydrazide	71
	B) Spectrophotometric determination of rhenium(VI) after extraction of its 2-furanthiocarboxhydrazide complex with molten naphthalene	80
