

FLUORESCENCE SPECTRAL STUDIES OF SOME PHTHALEIN DYES

CONTENTS

Chapter	Title	Pages
1	Fluorescence Spectra of Phthalein Dyes	1-26
2	Material and Methods	27-43
3	Vibrational and Electronic Spectra and Ionisation equilibria of Mellitein dyes	44-68
4	Fluorescence Spectra of mellitein dyes and their screening for applications in the study of enzyme activity	69-94
	References	95-105
