The aspect of community problem, especially of labour community is widely receiving concern and attention of the Government, Academicians, Authors, Researchers, Journalists and the research work on such problem is still under study and process of legislation. Contract labourer, contractor, and Railway officials of the Railways are specifically analysed and studied.

I am very glad to present a Dissertation for M.Phil in Social Work, on the topic "A STUDY OF CONTRACT LABOUR SYSTEM IN INDIAN RAILWAYS WITH REFERENCE TO CENTRAL RAILWAY SOLAPUR DIVISION."

I have made sincere efforts to study the rules and regulation of the contract labour system in the railways, its implications related to Principal Employer, Contractor and Contract labourers. Every attempt was made to throw more light on the very minute aspects of the above said factors.

I gratefully acknowledge my debt to the authorities of the Central Railway officers and sub-ordinates, Professors whose invaluable assistance and guidance have contributed to the successful completion of my Dissertation.

Under the eminent guidance of Professors Dr. G.V.Dingra this work has taken the proper shape and style.

The encouragement and help of Prof. S.G. Bawane, HOD is gratefully remembered in this occasion.

My father has given full inspiration and encouragement in this dissertation work.
