
CONTENTS

<u>CHAPTER</u> : 0	INTRODUCTION	1
<u>CHAPTER</u> : I	BASIC CONCEPTS	
1.0.	Introduction	13
1.1	Some optimal decision rules	15
1.2	Admissibility	33
1.3	Admissible decision rule	46
1.4	Inadmissibility of linear estimates for exponential families	52
<u>CHAPTER</u> : II	ADMISSIBILITY OF ESTIMATORS FOR EXPONENTIAL FAMILIES WITH QUADRATIC LOSS	
2.0	Introduction	61
2.1	On a theorem of Karlin	63
2.2	Truncation and admissibility	82
2.3	Admissibility of scale parameter	98
<u>CHAPTER</u> : III	INADMISSIBILITY OF STANDARD ESTIMATES AND CONFIDENCE INTERVALS	
3.0	Introduction	116
3.1	Inadmissibility of some standard estimates	118
3.2	Inadmissibility of the best invariant estimate of a location parameter	126
3.3	Admissibility of confidence intervals	131
