

INDEX

		Page No.
CHAPTER I	INTRODUCTION	1
	1.1 Meaning of Life Time and Scope of Survival Analysis	1
	1.2 Regression Models for Survival Analysis	4
	1.3 Concept of Censoring	7
	1.4 Chapterwise Summary	10
CHAPTER II	SOME BASIC CONCEPTS RELATED TO LIFE TIME DISTRIBUTIONS	12
	2.1 Introduction	12
	2.2 Basic Concepts	12
	2.3 Discrete Distributions	17
	2.4 Mixture of Continuous and Discrete Distributions	22
CHAPTER III	PROPORTIONAL HAZARDS MODEL	34
	3.1 Introduction	34
	3.2 Proportional Hazards Model	35
	3.3 Conditional Likelihood	41
	3.4 Marginal Likelihood	52
	3.5 Test For β in the Presence of Ties	62
	3.6 Two Sample Problem	70

CHAPTER IV	ACCRELERATED LIFE TIME MODELS	79
4.1	Introduction	79
4.2	Accelerated Failure Time Model	79
4.3	Accelerated Failure Time Models with Time Dependent Concomitant Variables	87
4.4	Accelerated Hazards Model	91
4.5	Some Other Models	94
	BIBLIOGRAPHY	98
