

C O N T E N T S

Chapter I :

DESCRIPTIVE STATISTICS FOR STATISTICAL MODELS.

1.1 : Introduction	01
1.2 : Models	01
1.3 : Need of Descriptive Statistics.	07

Chapter II :

DESCRIPTIVE STATISTICS FOR MULTIVARIATE MODELS

2.1 : Introduction	14
2.2 : Preliminaries	15
2.3 : Measures of Location	21
2.4 : Scatter	31
2.5 : Measure for skewness	38
2.6 : Measure for Kurtosis	52

Chapter III :

DESCRIPTIVE STATISTICS FOR NON-PARAMETRIC MODELS

3.1 : Introduction	59
3.2 : Non-parametric Neighbourhood Models	59
3.3 : Measures Of Location (location parameter)	65
3.4 : Measures Of Dispersion	84

Chapter IV :

OTHER DESCRIPTIVE MEASURES

4.1 : Introduction	92
4.2 : Measure Of Location	92
4.3 : Measure Of dispersion	94
4.4 : A New Measure For Peakedness	95
4.5 : Non-normal Distributions With Kurtosis equal to 3	101
References	107
