

CONTENTS

CHAPTER	TITLE	PAGE
I	INTRODUCTION	1 - 14.
	Embryonic origin of hemocytes	2
	Main Types of arthropod hemocytes	3
	Functions of hemocytes	8
	Lacunae in the study of arthropod hemocytes	12
	Objectives of present investigation	14
II	MATERIALS AND METHODS	15 - 30
	Material	15
	Methods	19
III	OBSERVATIONS AND RESULTS	31 - 45
	Light microscopic studies of Scorpion hemocytes	31
	Total hemocyte count (THC)	39
	Ultrastructural studies of hemocytes of <u>H.xanthopus</u>	41
IV	DISCUSSION	45 - 70
	Merits and demerits of techniques employed	46
	Hemocyte types	52
	THC AND DHC	68
	Conclusions	69
	BIBLIOGRAPHY	71 - 77
