

### ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my research guide Dr. Jay Samant for suggesting the research problem and guiding my work throughout the period of investigations.

My thanks are due to Dr. A.T. Varute, Professor and Head, Department of Zoology for providing the necessary facilities to carry out the research.

I am very much thankful to Prof. K.C. Malhotra, Indian Statistical Institute, Dr. N.K. More, and Mrs. A.J. Samant for their valuable suggestions, help in academic matters and constant encouragement.

Prof. M.S. Prasad, Director and Mr. Uday Desai, Programmer of the Shivaji University Computer Centre have extended all the possible help in the computer analysis of the data for which I am grateful to them.

Without the constant help of my colleagues, in field and at the department, this work could not have been possible. I express my feelings of gratitude to my colleagues on the Western Ghats Project particularly Shri V.P. Survase, Shri C.D. Pawar, Shri BMH Ahamad, Miss B.K. Desai and Miss R.V. Shinde, I am also thankful to my other colleagues Miss C.N. Sathe and Shri T.S. Bhosale from the department.

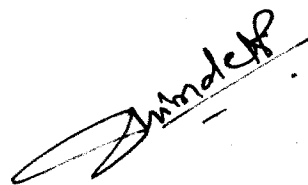

I acknowledge with thanks the award of Junior Research Fellowship by the Department of Environment, Govt. of India which enabled me to work on the prestigious Western Ghats Research Project in the Department of Zoology, Shivaji University.

The Government Officials namely Shri Kate, DFO, Satara,

Shri D.S. Kulkarni, E.E. Koyna Project, Shri Jagdale, DFDO, Satara, Shri Shinde, Tahashildar, Patan extended all the assistance during field work for which I sincerely thank them.

I am thankful to Prin. H.T. Patil, ACS College, Tasgaon and Dr. Abhaykumar Salonkhe, Secretary, Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for allowing me to do the research. Shri Ghatge had always been very considerate and did excellent job of typing the manuscript in short duration.

Without the warm hospitality, friendliness and patience cooperation of the inhabitants of the study area, even in the adverse conditions, this work would never have been completed. I am very much grateful to them all.

(Kiran P. Shinde)
