

List of Tables

- Table 1 Comparison of the number of species in five animal classes found in the world, India, Maharashtra and Western Ghats (Samant et al., 1988).
- Table 2 Maximum and minimum values of annual rainfall and number of rainy days in the two periods, 1955-1960 and 1980-1985 at the four stations.
- Table 3 Change in the status of villages in the study area.
- Table 4a General profile of the villages and their land composition in 1961 and 1981 from the study area.
- Table 4b Composition of land in 1961 and 1981.
- Table 5 Number and the percentage of households surveyed in each village of the study area.
- Table 6 Check list of the common vegetation from the study area with local Marathi names.
- Table 7a Taxonomic list of the Wild mammals studied in the Koyna Wildlife Sanctuary with their schedule status in the Wildlife Act 1980.
- Table 7b List of the birds recorded in the study area.
- Table 7c Taxonomic list of the Reptiles recorded in the Koyna wild life sanctuary.
- Table 7d Taxonomic list of the fishes in the reservoir.
- Table 8a Village wise status of animal diversity in the Koyna Wildlife Sanctuary.
- Table 8b List of the mammals and their past and present status in the Koyna Wildlife Sanctuary
- Table 9 Present status of the important animals in the Koyna Catchment.

- Table 10 Status of animals around villages in the study area.
- Table 11 Dependence of the local inhabitants on the adjoining forest resources in the study area.
- Table 12 Type of fuel used by the households in the study area.
- Table 13 Mean distance travelled (one way) and time taken (both ways) for collection of daily fuelwood requirements by the households in the each village in the study area.
- Table 14 Profile of fuelwood requirements of a household and time taken and distance travelled to collect it, mean values from the 20 villages in the KWS.
- Table 15 The wild animals hunted and the percentage of households involved in them in the study area.
- Table 16 Distribution of land holdings per household in the study area.
- Table 17 Percentage of other crops grown in the study area.
- Table 18 Present status of mammalian pest on agriculture in each village in the study area.
- Table 19 change in the status of crop pest in the study area.
- Table 20 Crop protection measures taken in the catchment area.
- Table 21 Major domestic animals, their number and percentage in the study area.

- Table 22 Percentage of households having buffelos and cattle in the study area.
- Table 23 Percentage of households having goats in the study area.
- Table 24 Source of leaf fodder in the study area.
- Table 25 Household percentage using different types of land for grazing.
- Table 26 Distance travelled by domestic animals per day (one way) for grazing in the study area.
- Table 27 Time spent per day for grazing by domestic animals.
- Table 28 Percentage of households without domestic animals holdings in the villages from East and West and outside the Koyna Catchment.
- Table 29 Change in the frequency of predation of domestic animals by five predators in the study area.
- Table 30 Number of households from the study area using different sources of water in summer, rainy and winter season.
- Table 31 The percentage of households using different quantities of water per day.
- Table 32 The percentage of households covering distance in meters (one way) for fetching daily requirement of water.
- Table 33 The percentage of households spending time for collection of water per day.

- Table 34 Change in the land holdings in the study area after the construction of Koyna Dam.
- Table 35 The opinions of the residents about the changes caused by dams in the Biological Diversity of the study area.
- Table 36 The opinions about the developmental impact of Koyna dam construction on life of residents of the study area.
- Table 37a Annual income from agriculture per household in the study area.
- Table 37b Income from Labour per household.
- Table 38 Income per household from other than agriculture.
- Table 39 The range of total annual income from all sources per household.
- Table 40 Average annual income per family in the study area from different sources.
- Table 41 Awareness and the residents about the study area being declared as Koyna Wildlife Sanctuary.
- Table 42 Choice of local inhabitants in the compensation for the Koyna Wildlife Sanctuary proposal.
