## ACKNOWLEDGEMENT

---

I wish to express my heartfelt gratitude towards my research guide Dr. Y. S. Toro and shall remain deeply indebted throughout my life to him for valuable help of all kinds, advice, valuable criticism of the observations and their interpretations and for many intelligent and inspiring discussions during the course of the present investigation. But for his guidance the present work would not have been completed as successfully as it has now been done. I also thank him for suggesting this problem for investigation and for successful completion of this dissertation. Near words are really inadequate to express my deep sense of gratitude towards him.

I will fail in my duty if I do not express my deep felt gratitude towards Shri K. M. Agashe (Ex. Principal Willingdon college) and Dr. A. T. Varute (Proffesor and Head, Department of Zoology, Shivaji University, Kolhapur) for the keen interest and efforts for starting M. Phil course in Zoology at Willingdon college and who gave me an opportunity for this postgraduate study.

I would like to extend my sincere appreciation to Principal Dr. B. A. Patil, Vice-Principal V. G. Kshirsagar and authorities of Willingdon college, who encouraged me to carry out the present investigation. Vice-Principal V. G. Kshirsagar was kind enough to extend all facilities of Zoology laboratory for my experimental work.

---

---

I am grateful to Dr. P. V. Sohani, who gave me necessary advice, suggestions and critical remarks regarding the observations of the present investigation. I owe special debt of gratitude to my respected teachers Y. B. Mangalware, M. M. Kurane and Dr. K. S. Heble who kindly helped me to prepare for theory examination.

I thank Dr. B. Subba Rao, President 'Environmental Protection Research Foundation (Sangli)' for providing me the laboratory facilities to carry out special experimental work.

I am very much thankful to my research colleagues Mr. Jadhav and Mrs. R. M. Patil who assisted me in carrying out the research work.

My special thanks goes to Dr. K. G. Kulkarni who used all his artistic skills for preparation of graphs. I wish to acknowledge Shri. M. V. Hiremath, Shri. Mushriff and Shri. Chhatre who contributed their excellent skill in preparing the photographic plates.

The excellent word processing of the present dissertation on computer is done by Mr. Suhas Khambe (Suyash Computers), who is very industrious and helpful friend of mine. Along with him I thank to Mrs. Ranade and Miss. Kulkarni for the skilled printing of my dissertation on computer. They had spared no pains in completing the type-script of the thesis.

I wish to thank Shri. Raste (Librarian) and the library staff of Willingdon college and Shivaji University for their co-operation in furnishing the library facilities.

---

---

My thanks goes to Shri. Satpute, office staff and non-teaching staff of the Zoology department especially Shri. Arun Ayare, Shri. Raghunath Jadhav, Shri. Ramesh Badadare and Shri. Tammanna Aidale for their timely help.

My colleagues and friends especially S. V. Supanekar, A. I. Mali, S. E. Gaikwad, D. S. Mundagnur and S. A. Manjare, who helped me all the while. So words are not enough to express my deep sense of gratitude towards them.

Last but not least, it is my privilege to thank my parents and my wife for all the hardships they had sustained during this work.

SANGLI.

28TH NOV. 1988.

(B. C. Hiremath)
