

### ACKNOWLEDGEMENT

I was fortunate to be the recipient of selfless hours by those who transmitted to me their knowledge of this subject - "Studies on Lasiosiphon eriocephalus plant toxin in the control of undesirable fishes".

I am beholden to my reverend teacher Dr.S.G.Nanaware for initiating me into the enchanting realm of research in plant induced toxicity. The lectures, discussions, suggestions, criticisms have helped me in appreciating the intricacies of this subject. It was his insistence and encouragement that taught me to face the disappointments with a smiling face. So it is a pleasure to express my deep sense of gratitude to him for guidance in the preparation of this Master of Philosophy dissertation in Zoology.

I am grateful to Dr.A.T.Varute, Professor and Head of the Zoology Department, Dean of Science Faculty, for providing me encouragement during the entire period of my research work.

For sharing their research repository, I am thankful to Dr.(Mrs.) Meena M. Pillai, Lecturer in Zoology, Dr.B.A.Vagyani, Lecturer in Botany, Dr.M.B.Hogale, Lecturer in Chemistry.

I am deeply indebted to Prof. Thomas Verghese, Head of the Post-graduate Department of Zoology, F.M. National College, Quilon, University of Kerala, for having helped me in countless ways.

My regards are due to Mrs. C.S.Nanaware, Anand and Ashu for their keen interest in this research project and irresistible love showed towards me.

•

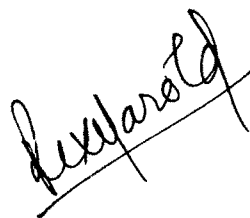

I am grateful to all my colleagues, especially Mr. G.R.Gonjari's help was inevitable. I am indebted to my friends - Mr. T.S.Nadar, Mr. M.V Santhakumar, Taju, M.U. and George Chacko for their incessant encouragement and timely help rendered to me during the entire period of my research activities. I am grateful to all the members of teaching and non-teaching staff of this department for their brotherly help whenever I requested for.

For the assistance in photomicrography, I am thankful to Dr.(Mrs.) A.B.Sabale and Shri M.N.Parkhe and for the meticulous typing to Shri Kumbhar and Shri Gosavi. I am also thankful to Mr.S.B.Desai for his help in operating Atomic Absorption Spectrophotometer. My special regards are to Mr. Rambhao Bartakke for his inquisitive mind, who observed the increasing occurrence of killing the fish by an indigenous plant and reported to us.

Last but not the least I am very much obliged to the authorities of the University, especially Dr. K.B. Pawar, the Vice-Chancellor and Dr. B.P. Sabale, the Registrar for the various facilities extended to me during the course of the present investigation.
