

List of Tables

- Table 1 : Comparison of the number of species in five animal classes found in the World, India, Maharashtra and the Western Ghats (Samant et al., 1988).
- Table 2 : Monthly and annual averages of the rainfall in mm from the Chandoli Wildlife Sanctuary during 1980 to 1986.
- Table 3 : Profile of the 33 Villages from the Chandoli Wildlife Sanctuary.
- Table 4 : List of Abundant, Common and Uncommon plant species and their vernacular and Scientific names from CWS.
- Table 5 : Animal diversity in the Western Ghats of Maharashtra including Chandoli Wildlife Sanctuary (Samant et al., 1988).
- Table 6 : Taxonomic list of the Wild mammals studied in the Chandoli Wildlife Sanctuary with their status in the Wildlife Act 1980.
- Table 7 : Present status of 30 Wild mammals around 24 villages from the Chandoli Wildlife Sanctuary.
- Table 8 : Percentage occurrence and the status of the 30 Wild mammals from the entire Chandoli Wildlife Sanctuary.
- Table 9 : Village land profile and its distribution in the proposed zones A, B and C in the CWS.
- Table 10 : Percentage distribution of Wild mammals in the vicinity of the villages in the Chandoli Wildlife Sanctuary and the zones in which the villages are situated.
- Table 11 : Percentage occurrence of the 30 Wild mammals in the zones A, B and C in the Chandoli Wildlife Sanctuary.
- Table 12 : Type of fuel used by the households in the CWS.

- Table 13 : Mean distance travelled (one way) and time taken (both way) for collection of daily firewood requirements by the households in each village in the CWS.
- Table 14 : The profile of fuelwood requirements of a household and time taken and distance travelled to collect it, mean values from the 24 villages in CWS.
- Table 15 : Number of households from the study area using different water sources in Summer, Rainy and Winter seasons.
- Table 16 : The Percentage of households using different quantities of water in liters per day in the CWS.
- Table 17 : The Percentage of households covering distance in meters (one way) for fetching water per day in the CWS.
- Table 18 : The Percentage of households spending time for collection of water per day in the CWS.
- Table 19 : The percentage of informants from 17 villages in the Chandoli Wildlife Sanctuary who provided information about the frequency of hunting of 15 common wild animals.
- Table 20 : The traditional and present main occupation of the people from the study area.
- Table 21.: Distribution of total land holdings per household in the Chandoli Wildlife Sanctuary.
- Table 22 : Distribution of land under shifting cultivation per household from CWS.
- Table 23 : Use of own and Government land for shifting cultivation in the 24 villages in the CWS.
- Table 24 : Percentage of households cultivating traditional and major non-traditional crops in addition to the traditional crops.

- Table 25 : Past and present status of the major mammalian crop pests in the Chandoli Wildlife Sanctuary.
- Table 26 : Precautionary measures taken against mammalian crop pests in the CWS.
- Table 27 : The distribution of the percentage of households having buffelo, cattle and goats in the study area.
- Table 28 : Percentage of households using different catagories of land for grazing purpose in the CWS.
- Table 29 : Mean distance travelled by domestic animals per day (one way) for grazing in each village in the CWS.
- Table 30 : Time spent per day and distance travelled (one way) per day for grazing by domestic animals.
- Table 31 : Respondents openion about the pattern of change in the grazing area and yield of fodder per unit area in the CWS.
- Table 32 : Percentage of households having a number of individuals per household.
- Table 33 : Caste distribution in the study area.
- Table 34 : Personal information about the 669 heads of households from the study area.
- Table 35 : Total number of persons left the study area during last six years (1980-86) and the reasons for leaving the area.
- Table 36 : Openion of the respondents about the change in the biological diversity in the CWS due to various human activities.
- Table 37 : Openion of the respondents about the impact of Warna Dam Construction and associated developmental activities on the life of people in the study area.
- Table 38 : Preference for compensation by the people from the Chandoli Wildlife Sanctuary.
