

**CONTENTS**

Chapter	Title	Page
I	<b><u>GENERAL INTRODUCTION</u></b>	... 1-17
	A) A Brief Survey of haematological and enzymological studies on fish during piscicides intoxication.	... 2
	1. Haematological studies	... 2
	i) Metal toxicity	... 2
	ii) Chemical toxicity	... 4
	iii) Plant products toxicity	... 7
	2. Enzymological studies	... 7
	i) Metal toxicity	... 7
	ii) Chemical toxicity	... 8
	iii) Plant products toxicity	... 8
	3. Other studies	... 8
	i) Behaviour responses	... 8
	ii) Pathological alterations	... 10
	iii) Histochemical mucin changes	... 11
	B) Reasons that led us to take up this problem and analysis of problem.	... 12
	1) Choice of the plant	... 12
	2) Choice of the haematological parameters and enzyme.	... 13
	3) Choice of fish	... 14
	4) Choice of the methods	... 15
	C) Outline of the present study	... 15
II	<b><u>MATERIAL AND METHODS</u></b>	... 18-32
	A) Material :	... 18
	1. Plant material	... 18
	2. Animal material	... 19

Chapter	Title	Page
	B) Methods :	... 20
	1. Method of piscicide extraction	... 20
	2. Experimental procedure	... 20
	3. Haematological methods	... 22
	4. Enzymological procedures	... 30
III	<u>HAEMATOLOGICAL STUDIES ON <i>S. MOSSAMBICA</i></u> <u>AFTER EXPOSURE TO NATURAL PISCICIDE</u>	... 33-48
	1. Introduction	... 33
	2. General behaviour of fish	... 33
	3. Haematological observations	... 34
	i) TRBC	... 34
	ii) TWBC	... 35
	iii) Clotting time	... 35
	iv) Haemoglobin	... 36
	v) Morphological observations on blood cells	... 37
	4. Discussion	... 39
IV	<u>ENZYMOLOGICAL STUDIES ON ALKALINE PHOSPHATASE</u> ... 49-63 <u>IN SOME TARGET ORGANS OF <i>S. MOSSAMBICA</i></u> <u>AFTER EXPOSURE TO NATURAL PISCICIDE</u>	
	1. Introduction	... 49
	2. Enzymological observations	... 49
	i) Liver	... 49
	ii) Kidney	... 51
	iii) Gill	... 54
	iv) Brain	... 56
	3. Discussion	... 57
V	<u>GENERAL SUMMARY AND CONCLUDING REMARKS</u> ... 64-71	
	1. General summary	... 64
	2. Concluding remarks	... 69
	<u>BIBLIOGRAPHY</u> ... 72-84
