

## ACKNOWLEDGEMENT

First and foremost, I must acknowledge my research guide Dr. B.K. Pawar, Reader in Zoology, Shivaji University, Kolhapur, for suggesting this problem, for guiding my work and for the successful completion of this dissertation. He has been a constant source of inspiration to me and he is instrumental in training me as a research worker in Zoology. But for his able guidance, interesting criticism on the observations and many intelligent and inspiring discussions, the present work would not have been completed as successfully as it has now been.

It is with great pleasure that I offer my vast indebtedness and heartfelt gratitude to my esteemed teacher Dr. N.K. More, Professor and Head, Department of Zoology, Shivaji University, Kolhapur. He has been a great source of inspiration in tackling this field of enquiry into which I was not initiated earlier.

I express my sincere gratitude towards Dr. V.A. Sawant, Dr. S.G. Nanaware, Dr. (Mrs) M.M. Pillai, Dr. (Mrs) A.A. Kanase and Dr. J.J.
